

STATEMENT OF ADDITIONAL INFORMATION

EDGEWOOD GROWTH FUND

(Institutional Class Shares Ticker Symbol: EGFIX)

(Retail Shares Ticker Symbol: EGFFX)

(Service Shares Ticker Symbol: EGFSX)

a series of THE ADVISORS' INNER CIRCLE FUND

March 1, 2020

Investment Adviser:

EDGEWOOD MANAGEMENT LLC

This Statement of Additional Information (“SAI”) is not a prospectus. It is intended to provide additional information regarding the activities and operations of The Advisors’ Inner Circle Fund (the “Trust”) and the Edgewood Growth Fund (the “Fund”). This SAI is incorporated by reference into and should be read in conjunction with the Fund’s prospectus dated March 1, 2020, as it may be amended from time to time (“Prospectus”). Capitalized terms not defined herein are defined in the Prospectus. The most recent Annual Report for the Fund, which includes the Fund’s audited financial statements dated October 31, 2019, is incorporated by reference into this SAI. Shareholders may obtain copies of the Prospectus or Annual Report free of charge by writing to the Fund at P.O. Box 219009, Kansas City, Missouri 64121-9009 or calling toll-free at 1-800-791-4226.

THE TRUST

General. The Fund is a separate series of the Trust. The Trust is an open-end investment management company established under Massachusetts law as a Massachusetts voluntary association (commonly known as a business trust) under a Declaration of Trust dated July 18, 1991, as amended and restated February 18, 1997 and amended May 15, 2012 (the “Declaration of Trust”). The Declaration of Trust permits the Trust to offer separate series (“funds”) of shares of beneficial interest (“shares”). The Trust reserves the right to create and issue shares of additional funds. Each fund is a separate mutual fund, and each share of each fund represents an equal proportionate interest in that fund. All consideration received by the Trust for shares of any fund and all assets of such fund belong solely to that fund and would be subject to liabilities related thereto. The Fund pays its (i) operating expenses, including fees of its service providers, expenses of preparing prospectuses, proxy solicitation material and reports to shareholders, costs of custodial services and registering its shares under federal and state securities laws, pricing and insurance expenses, brokerage costs, interest charges, taxes and organization expenses, and (ii) pro rata share of the Fund’s other expenses, including audit and legal expenses. Expenses attributable to a specific fund shall be payable solely out of the assets of that fund. Expenses not attributable to a specific fund are allocated across all of the funds on the basis of relative net assets. The other funds of the Trust are described in one or more separate statements of additional information.

Description of Multiple Classes of Shares. The Trust is authorized to offer shares of the Fund in Institutional Shares, Retail Shares and Service Shares. The different classes provide for variations in certain distribution and shareholder servicing expenses and in the minimum initial investment requirements and investor eligibility. Minimum investment requirements and investor eligibility are described in the Prospectus. For more information on distribution and shareholder servicing expenses, see “Payments to Financial Intermediaries” in this SAI. The Trust reserves the right to create and issue additional classes of shares.

Voting Rights. Each shareholder of record is entitled to one vote for each share held on the record date for the meeting. The Fund will vote separately on matters relating solely to it. As a Massachusetts voluntary association, the Trust is not required, and does not intend, to hold annual meetings of shareholders. Approval of shareholders will be sought, however, for certain changes in the operation of the Trust and for the election of the Board of Trustees of the Trust (each, a “Trustee” and together, the “Board”) under certain circumstances. Under the Declaration of Trust, the Trustees have the power to liquidate the Fund without shareholder approval. While the Trustees have no present intention of exercising this power, they may do so if the Fund fails to reach a viable size within a reasonable amount of time or for such other reasons as may be determined by the Board.

In addition, a Trustee may be removed by the remaining Trustees or by shareholders at a special meeting called upon written request of shareholders owning at least 10% of the outstanding shares of the Trust. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Any series of the Trust created on or after November 11, 1996 may reorganize or merge with one or more other series of the Trust or of another investment company. Any such reorganization or merger shall be pursuant to the terms and conditions specified in an agreement and plan of reorganization authorized and approved by the Trustees and entered into by the relevant series in connection therewith. In addition, such reorganization or merger may be authorized by vote of a majority of the Trustees then in office and, to the extent permitted by applicable law and the Declaration of Trust, without the approval of shareholders of any series.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVE AND POLICIES

The Fund’s investment objective and principal investment strategies are described in the Prospectus. The following information supplements, and should be read in conjunction with, the Prospectus. For a description of certain permitted investments discussed below, see “Description of Permitted Investments” in this SAI.

Non-Diversification. The Fund is classified as a “non-diversified” investment company under the Investment Company Act of 1940, as amended (the “1940 Act”), which means that a relatively high percentage of assets of the Fund may be invested in obligations of a limited number of issuers. The value of the shares of the Fund may be more susceptible to any single economic, political or regulatory occurrence than the shares of a diversified investment company would be. The Fund intends to satisfy the diversification requirements necessary to qualify as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”), which generally requires that the Fund be diversified (i.e., that it will not invest more than 5% of its assets in the securities of any one issuer) with respect to 50% of its assets.

DESCRIPTION OF PERMITTED INVESTMENTS

The following are descriptions of the permitted investments and investment practices of the Fund and the associated risk factors. The Fund may invest in any of the following instruments or engage in any of the following investment practices unless such investment or activity is inconsistent with or is not permitted by the Fund’s stated investment policies, including those stated below.

American Depositary Receipts. American Depositary Receipts (“ADRs”) as well as other “hybrid” forms of ADRs, including European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”), are certificates evidencing ownership of shares of a foreign issuer. These certificates are issued by depository banks and generally trade on an established market in the United States or elsewhere. The underlying shares are held in trust by a custodian bank or similar financial institution in the issuer’s home country. The depository bank may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. ADRs are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, ADRs continue to be subject to many of the risks associated with investing directly in foreign securities.

Investments in the securities of foreign issuers may subject the Fund to investment risks that differ in some respects from those related to investments in securities of U.S. issuers. Such risks include future adverse political and economic developments, possible imposition of withholding taxes on income, possible seizure, nationalization or expropriation of foreign deposits, possible establishment of exchange controls or taxation at the source or greater fluctuation in value due to changes in exchange rates. Foreign issuers of securities often engage in business practices different from those of domestic issuers of similar securities, and there may be less information publicly available about foreign issuers. In addition, foreign issuers are, generally speaking, subject to less government supervision and regulation and different accounting treatment than are those in the United States. Also, certain foreign countries have experienced outbreaks of infectious illnesses and may be subject to other public health threats, infectious illnesses, diseases or similar issues in the future. Any spread of an infectious illness, public health threat or similar issue could reduce consumer demand or economic output, result in market closures, travel restrictions or quarantines, and generally have a significant impact on the economies of the affected country and other countries with which it does business, which in turn could adversely affect the Fund’s investments in that country and other affected countries.

ADRs can be sponsored or unsponsored. While these types are similar, there are differences regarding a holder’s rights and obligations and the practices of market participants. A depository may establish an unsponsored facility without participation by (or acquiescence of) the underlying issuer; typically, however, the depository requests a letter of non-objection from the underlying issuer prior to establishing the facility. Holders of unsponsored depository receipts generally bear all the costs of the facility. The depository usually charges fees upon the deposit and withdrawal of the underlying securities, the conversion of dividends into U.S. dollars or other currency, the disposition of non-cash distributions, and the performance of other services. Sponsored depository receipt facilities are created in generally the same manner as unsponsored facilities, except that sponsored depository receipts are established jointly by a depository and the underlying issuer through a deposit agreement. The deposit agreement sets out the rights and responsibilities of the underlying issuer, the depository, and the depository receipt holders. With sponsored facilities, the underlying issuer typically bears some of the costs of the depository receipts (such as dividend payment fees of the depository), although most sponsored depository receipts holders may bear costs such as deposit and withdrawal fees. Depositories of most sponsored depository receipts agree to distribute notices of shareholder meetings, voting instructions, and other shareholder communications and information to the depository receipt holders at the underlying issuer’s request. The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through, to the holders of the receipts, voting rights with respect to the deposited securities.

Equity Securities. Equity securities represent ownership interests in a company or partnership and consist of common stocks, preferred stocks, warrants to acquire common stock and securities convertible into common stock. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. Fluctuations in the value of equity securities in which the Fund invests will cause the net asset value of the Fund to fluctuate. The Fund purchases equity securities traded in the United States on registered exchanges or the over-the-counter market. Equity securities are described in more detail below:

- **Common Stock.** Common stock represents an equity or ownership interest in an issuer. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds and preferred stock take precedence over the claims of those who own common stock.
- **Preferred Stock.** Preferred stock represents an equity or ownership interest in an issuer that pays dividends at a specified rate and that has precedence over common stock in the payment of dividends. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds take precedence over the claims of those who own preferred and common stock.
- **Warrants.** Warrants are instruments that entitle the holder to buy an equity security at a specific price for a specific period of time. Changes in the value of a warrant do not necessarily correspond to changes in the value of its underlying security. The price of a warrant may be more volatile than the price of its underlying security, and a warrant may offer greater potential for capital appreciation as well as capital loss. Warrants do not entitle a holder to dividends or voting rights with respect to the underlying security and do not represent any rights in the assets of the issuing company. A warrant ceases to have value if it is not exercised prior to its expiration date. These factors can make warrants more speculative than other types of investments.
- **Convertible Securities.** Convertible securities are bonds, debentures, notes, preferred stocks or other securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. A convertible security may also be called for redemption or conversion by the issuer after a particular date and under certain circumstances (including a specified price) established upon issue. If a convertible security held by the Fund is called for redemption or conversion, the Fund could be required to tender it for redemption, convert it into the underlying common stock, or sell it to a third party.

Convertible securities generally have less potential for gain or loss than common stocks. Convertible securities generally provide yields higher than the underlying common stocks, but generally lower than comparable non-convertible securities. Because of this higher yield, convertible securities generally sell at a price above their “conversion value,” which is the current market value of the stock to be received upon conversion. The difference between this conversion value and the price of convertible securities will vary over time depending on changes in the value of the underlying common stocks and interest rates. When the underlying common stocks decline in value, convertible securities will tend not to decline to the same extent because of the interest or dividend payments and the repayment of principal at maturity for certain types of convertible securities. However, securities that are convertible other than at the option of the holder generally do not limit the potential for loss to the same extent as securities convertible at the option of the holder. When the underlying common stocks rise in value, the value of convertible securities may also be expected to increase. At the same time, however, the difference between the market value of convertible securities and their conversion value will narrow, which means that the value of convertible securities will generally not increase to the same extent as the value of the underlying common stocks. Because convertible securities may also be interest-rate sensitive, their value may increase as interest rates fall and decrease as interest rates rise. Convertible securities are also subject to credit risk, and are often lower-quality securities.

- **Small and Medium Capitalization Issuers.** Investing in equity securities of small and medium capitalization companies often involves greater risk than is customarily associated with investments in larger capitalization companies. This increased risk may be due to the greater business risks of smaller size, limited markets and financial resources, narrow product lines and frequent lack of depth of management. The securities of smaller companies are often traded in the over-the-counter market and even if listed on a national securities exchange may not be traded in volumes typical for that exchange. Consequently, the securities of smaller companies are less likely to be liquid, may have limited market stability, and may be subject to more abrupt or erratic market movements than securities of larger, more established growth companies or the market averages in general.

Exchange-Traded Funds (“ETFs”). ETFs are investment companies whose shares are bought and sold on a securities exchange. An ETF holds a portfolio of securities designed to track a particular market segment or index. Some examples of ETFs are SPDRs[®], DIAMONDSSM, NASDAQ 100 Index Tracking StockSM (“QQQsSM”), and iShares[®]. The Fund could purchase an ETF to temporarily gain exposure to a portion of the U.S. or foreign market while awaiting an opportunity to purchase securities directly. The risks of owning an ETF generally reflect the risks of owning the securities comprising the index which an index ETF is designed to track or the other holdings of an active or index ETF, although lack of liquidity in an ETF could result in it being more volatile than the tracked index or underlying holdings, and ETFs have management fees that increase their costs versus the costs of owning the underlying holdings directly. See also “Securities of Other Investment Companies” below.

Fixed Income Securities. Fixed income securities include bonds, notes, debentures and other interest-bearing securities that represent indebtedness. The market value of the fixed income investments in which the Fund invests will change in response to interest rate changes and other factors. During periods of falling interest rates, the values of outstanding fixed income securities generally rise. Conversely, during periods of rising interest rates, the values of such securities generally decline. Moreover, while securities with longer maturities tend to produce higher yields, the prices of longer maturity securities are also subject to greater market fluctuations as a result of changes in interest rates. Changes by recognized agencies in the rating of any fixed income security and in the ability of an issuer to make payments of interest and principal also affect the value of these investments. Changes in the value of these securities will not necessarily affect cash income derived from these securities but will affect the Fund’s net asset value.

Foreign Securities. Foreign securities include equity securities of foreign entities, obligations of foreign branches of U.S. banks and of foreign banks, including, without limitation, European Certificates of Deposit, European Time Deposits, European Bankers’ Acceptances, Canadian Time Deposits, Europaper and Yankee Certificates of Deposit, and investments in Canadian Commercial Paper and foreign securities. These instruments have investment risks that differ in some respects from those related to investments in obligations of U.S. domestic issuers. Such risks include future adverse political and economic developments, the possible imposition of withholding taxes on interest or other income, possible seizure, nationalization, or expropriation of foreign deposits, the possible establishment of exchange controls or taxation at the source, greater fluctuations in value due to changes in exchange rates, or the adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on such obligations. Such investments may also entail higher custodial fees and sales commissions than domestic investments. Foreign issuers of securities or obligations are often subject to accounting treatment and engage in business practices different from those respecting domestic issuers of similar securities or obligations. Foreign branches of U.S. banks and foreign banks may be subject to less stringent reserve requirements than those applicable to domestic branches of U.S. banks.

Money Market Securities. Money market securities include: short-term U.S. government securities; custodial receipts evidencing separately traded interest and principal components of securities issued by the U.S. Treasury; commercial paper rated in the highest short-term rating category by a nationally recognized statistical ratings organization (“NRSRO”), such as Standard & Poor’s Rating Services (“S&P”) or Moody’s Investor Service (“Moody’s”), or determined by Edgewood Management LLC (the “Adviser”) to be of comparable quality at the time of purchase; short-term bank obligations (certificates of deposit, time deposits and bankers’ acceptances) of U.S. commercial banks with assets of at least \$1 billion as of the end of their most recent fiscal year; and repurchase agreements involving such securities. Each of these money market securities are described in this SAI. For a description of ratings, see “Appendix A – Description of Ratings” to this SAI.

U.S. Government Securities. The Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one-year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as the Federal National Mortgage Association (“Fannie Mae”), the Government National Mortgage Association (“Ginnie Mae”), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation (“Farmer Mac”).

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency. Additionally, some obligations are issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, which are supported by the right of the issuer to borrow from the U.S. Treasury. While the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. Guarantees of principal by U.S. government agencies or instrumentalities may be a guarantee of payment at the maturity of the obligation so that in the event of a default prior to maturity there might not be a market and thus no means of realizing on the obligation prior to maturity. Guarantees as to the timely payment of principal and interest do not extend to the value or yield of these securities nor to the value of the Fund’s shares.

On September 7, 2008, the U.S. Treasury announced a federal takeover of Fannie Mae and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), placing the two federal instrumentalities in conservatorship. Under the takeover agreement, the U.S. Treasury agreed to acquire \$1 billion of senior preferred stock of each instrumentality and obtained warrants for the purchase of common stock of each instrumentality (the “Senior Preferred Stock Purchase Agreement” or “Agreement”). Under the Agreement, the U.S. Treasury pledged to provide up to \$200 billion per instrumentality as needed, including the contribution of cash capital to the instrumentalities in the event their liabilities exceed their assets. This was intended to ensure that the instrumentalities maintain a positive net worth and meet their financial obligations, preventing mandatory triggering of receivership. On December 24, 2009, the U.S. Treasury announced that it was amending the Agreement to allow the \$200 billion cap on the U.S. Treasury’s funding commitment to increase as necessary to accommodate any cumulative reduction in net worth through the end of 2012. The unlimited support the U.S. Treasury extended to the two companies expired at the beginning of 2013 – Fannie Mae’s support is now capped at \$125 billion and Freddie Mac has a limit of \$149 billion.

On August 17, 2012, the U.S. Treasury announced that it was again amending the Agreement to terminate the requirement that Fannie Mae and Freddie Mac each pay a 10 percent annual dividend. Instead, the companies will transfer to the U.S. Treasury on a quarterly basis all profits earned during a quarter that exceed a capital reserve amount. The capital reserve amount was \$3 billion in 2013, and decreased by \$600 million in each subsequent year through 2017. It is believed that the new amendment puts Fannie Mae and Freddie Mac in a better position to service their debt because the companies no longer have to borrow from the U.S. Treasury to make fixed dividend payments. As part of the new terms, Fannie Mae and Freddie Mac also will be required to reduce their investment portfolios over time. On December 21, 2017, the U.S. Treasury announced that it was again amending the Agreement to reinstate the \$3 billion capital reserve amount.

Fannie Mae and Freddie Mac are the subject of several continuing class action lawsuits and investigations by federal regulators over certain accounting, disclosure or corporate governance matters, which (along with any resulting financial restatements) may adversely affect the guaranteeing entities. Importantly, the future of the entities is in serious question as the U.S. government reportedly is considering multiple options, ranging from nationalization, privatization, consolidation, or abolishment of the entities.

U.S. Treasury Obligations. U.S. Treasury obligations consist of direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, and separately traded interest and principal component parts of such obligations, including those transferable through the Federal book-entry system known as Separate Trading of Registered Interest and Principal of Securities (“STRIPS”). The STRIPS program lets investors hold and trade the individual interest and principal components of eligible Treasury notes and bonds as separate securities. Under the STRIPS program, the principal and interest components are separately issued by the U.S. Treasury at the request of depository financial institutions, which then trade the component parts separately.

Commercial Paper. Commercial paper is the term used to designate unsecured short-term promissory notes issued by corporations and other entities. Maturities on these issues vary from a few to 270 days.

Bank Obligations. The Fund may invest in obligations issued by banks and other savings institutions. Investments in bank obligations include obligations of domestic branches of foreign banks and foreign branches of domestic banks. Such investments in domestic branches of foreign banks and foreign branches of domestic banks may involve risks that are different from investments in securities of domestic branches of U.S. banks. These risks may include future unfavorable political and economic developments, possible withholding taxes on interest income, seizure or nationalization of foreign deposits, currency controls, interest limitations, or other governmental restrictions which might affect the payment of principal or interest on the securities held by the Fund. Additionally, these institutions may be subject to less stringent reserve requirements and to different accounting, auditing, reporting and recordkeeping requirements than those applicable to domestic branches of U.S. banks. Bank obligations include the following:

- **Bankers’ Acceptances.** Bankers’ acceptances are bills of exchange or time drafts drawn on and accepted by a commercial bank. Corporations use bankers’ acceptances to finance the shipment and storage of goods and to furnish dollar exchange. Maturities are generally six months or less.
- **Certificates of Deposit.** Certificates of deposit are interest-bearing instruments with a specific maturity. They are issued by banks and savings and loan institutions in exchange for the deposit of funds and normally can be traded in the secondary market prior to maturity. Certificates of deposit with penalties for early withdrawal will be considered illiquid.
- **Time Deposits.** Time deposits are non-negotiable receipts issued by a bank in exchange for the deposit of funds. Like a certificate of deposit, it earns a specified rate of interest over a definite period of time; however, it cannot be traded in the secondary market. Time deposits with a withdrawal penalty or that mature in more than seven days are considered to be illiquid investments.

Repurchase Agreements. The Fund may enter into repurchase agreements with financial institutions. A repurchase agreement is an agreement under which the Fund acquires a security from a commercial bank, broker, or dealer, and simultaneously agrees to resell such security to the seller at an agreed upon price and date (normally, the next business day). Because the security purchased constitutes collateral for the repurchase obligation, a repurchase agreement may be considered a loan that is collateralized by the security purchased. The acquisition of a repurchase agreement may be deemed to be an acquisition of the underlying securities if the obligation of the seller to repurchase the securities is collateralized fully. The Fund follows certain procedures designed to minimize the risks inherent in such agreements. These procedures include effecting repurchase transactions only with creditworthy financial institutions whose condition will be continually monitored by the Adviser. Under all repurchase agreements entered into by the Fund, the custodian or its agent must take possession of the underlying collateral. In the event of a default or bankruptcy by a selling financial institution, the Fund will seek to liquidate such collateral. However, the exercising of the Fund’s right to liquidate such collateral could involve certain costs or delays and, to the extent that proceeds from any sale upon a default of the obligation to repurchase were less than the repurchase price, the Fund could suffer a loss. The Fund may enter into “tri-party” repurchase agreements. In “tri-party” repurchase agreements, an unaffiliated third party custodian maintains accounts to hold collateral for the Fund and its counterparties and, therefore, the Fund may be subject to the credit risk of those custodians. The investments of the Fund in repurchase agreements, at times, may be substantial when, in the view of the Adviser, liquidity or other considerations so warrant.

Securities of Other Investment Companies. The Fund may invest in shares of other investment companies, to the extent permitted by applicable law and any applicable exemptive relief, subject to certain restrictions. These investment companies typically incur fees that are separate from those fees incurred directly by the Fund. The Fund's purchase of such investment company securities results in the layering of expenses, such that shareholders would indirectly bear a proportionate share of the operating expenses of such investment companies, including advisory fees, in addition to paying the Fund's expenses. Unless an exception is available, Section 12(d)(1)(A) of the 1940 Act prohibits a fund from (i) acquiring more than 3% of the voting shares of any one investment company, (ii) investing more than 5% of its total assets in any one investment company, and (iii) investing more than 10% of its total assets in all investment companies combined, including its ETF investments.

For hedging or other purposes, the Fund may invest in investment companies that seek to track the composition and/or performance of specific indexes or portions of specific indexes. Certain of these investment companies, known as ETFs, are traded on a securities exchange. (See "Exchange-Traded Funds" above). The market prices of index-based investments will fluctuate in accordance with changes in the underlying portfolio securities of the investment company and also due to supply and demand of the investment company's shares on the exchange upon which the shares are traded. Index-based investments may not replicate or otherwise match the composition or performance of their specified index due to transaction costs, among other things.

Pursuant to orders issued by the U.S. Securities and Exchange Commission (the "SEC") to certain ETFs and procedures approved by the Board, the Fund may invest in such ETFs in excess of the 3% limitation prescribed by Section 12(d)(1)(A) described above, provided that the Fund otherwise complies with the conditions of the applicable SEC order, as it may be amended, and any other applicable investment limitations. Neither such ETFs nor their investment advisers make any representations regarding the advisability of investing in the ETFs.

Securities Lending. The Fund may lend portfolio securities to brokers, dealers and other financial organizations that meet capital and other credit requirements or other criteria established by the Board. These loans, if and when made, may not exceed 33 1/3% of the total asset value of the Fund (including the loan collateral). The Fund will not lend portfolio securities to the Adviser or its affiliates unless permissible under the 1940 Act and the rules and promulgations thereunder. Loans of portfolio securities will be fully collateralized by cash, letters of credit or U.S. government securities, and the collateral will be maintained in an amount equal to at least 100% of the current market value of the loaned securities by marking to market daily. Any gain or loss in the market price of the securities loaned that might occur during the term of the loan would be for the account of the Fund.

The Fund may pay a part of the interest earned from the investment of collateral, or other fee, to an unaffiliated third party for acting as the Fund's securities lending agent, but will bear all of any losses from the investment of collateral.

By lending its securities, the Fund may increase its income by receiving payments from the borrower that reflect the amount of any interest or any dividends payable on the loaned securities as well as by either investing cash collateral received from the borrower in short-term instruments, or obtaining a fee from the borrower when U.S. government securities or letters of credit are used as collateral. Investing cash collateral subjects the Fund to market risk. The Fund remains obligated to return all collateral to the borrower under the terms of its securities lending arrangements, even if the value of investments made with the collateral decline. Accordingly, if the value of a security in which the cash collateral has been invested declines, the loss would be borne by the Fund, and the Fund may be required to liquidate other investments in order to return collateral to the borrower at the end of the loan. The Fund will adhere to the following conditions whenever its portfolio securities are loaned: (i) the Fund must receive at least 100% cash collateral or equivalent securities of the type discussed above from the borrower; (ii) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (iii) the Fund must be able to terminate the loan on demand; (iv) the Fund must receive reasonable interest on the loan, as well as any dividends, interest or other distributions on the loaned securities and any increase in market value; (v) the Fund may pay only reasonable fees in connection with the loan (which fees may include fees payable to the lending agent, the borrower, the Fund's administrator and the custodian); and (vi) voting rights on the loaned securities may pass to the borrower, provided, however, that if a material event adversely affecting the investment occurs, the Fund must terminate the loan and regain the right to vote the securities. The Board has adopted procedures reasonably designed to ensure that the foregoing criteria will be met. Loan agreements involve certain risks in the event of default or insolvency of the borrower, including possible delays or restrictions upon the Fund's ability to recover the loaned securities or dispose of the collateral for the loan, which could give rise to loss because of adverse market action, expenses and/or delays in connection with the disposition of the underlying securities.

Futures and Options on Futures. A futures contract is an agreement between two parties whereby one party agrees to sell and the other party agrees to buy a specified amount of a specific security at a specified future time and at a specified price. An option on a futures contract gives the purchaser the right, in exchange for a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. The Fund will reduce the risk that it will be unable to close out a futures contract by only entering into futures contracts that are traded on a national futures exchange regulated by the Commodities Futures Trading Commission (“CFTC”). The Fund may use futures contracts and related options for bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes. To the extent futures and/or options on futures are employed by the Fund, such use will be in accordance with Rule 4.5 of the Commodity Exchange Act (“CEA”).

Pursuant to rules adopted under the Commodity Exchange Act (“CEA”) by the Commodity Futures Trading Commission (“CFTC”), the Fund must either operate within certain guidelines and restrictions with respect to the Fund’s use of futures, options on such futures, commodity options and certain swaps, or the Adviser will be subject to registration with the CFTC as a “commodity pool operator” (“CPO”).

Consistent with the CFTC’s regulations, the Trust, on behalf of the Fund, has filed a notice of exclusion from the definition of the term CPO under the CEA pursuant to CFTC Rule 4.5 and, therefore, the Fund is not subject to registration or regulation as a CPO under the CEA. As a result, the Fund will be limited in its ability to use futures, options on such futures, commodity options and certain swaps. Complying with the limitations may restrict the Adviser’s ability to implement the Fund’s investment strategies and may adversely affect the Fund’s performance.

An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made; generally contracts are closed out prior to the expiration date of the contract.

When the Fund purchases or sells a futures contract, or sells an option thereon, the Fund is required to “cover” its position in order to limit leveraging and related risks. With respect to futures contracts that are contractually required to “cash settle,” the Fund may cover its position by maintaining with its custodian bank (and marking-to-market on a daily basis), a segregated account consisting of cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract, rather than the notional value of the contract, or otherwise “cover” its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. The segregated account functions as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund’s outstanding portfolio securities. Additionally, such segregated accounts will generally assure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities. However, by segregating assets in an amount equal to the net obligation rather than the notional amount of cash settled futures, the Fund will have the ability to employ leverage to a greater extent than if it set aside cash or other liquid securities equal to the notional amount of the contract, which may increase the risk associated with such transactions.

The Fund may also cover its long position in a futures contract by purchasing a put option on the same futures contract with a strike price (i.e., an exercise price) as high or higher than the price of the futures contract. In the alternative, if the strike price of the put is less than the price of the futures contract, the Fund will segregate cash or liquid securities equal in value to the difference between the strike price of the put and the price of the futures contract. The Fund may also cover its long position in a futures contract by taking a short position in the instruments underlying the futures contract, or by taking positions in instruments with prices which are expected to move relatively consistently with the futures contract. The Fund may cover its short position in a futures contract by taking a long position in the instruments underlying the futures contracts, or by taking positions in instruments with prices which are expected to move relatively consistently with the futures contract.

The Fund may cover its sale of a call option on a futures contract by taking a long position in the underlying futures contract at a price less than or equal to the strike price of the call option. In the alternative, if the long position in the underlying futures contract is established at a price greater than the strike price of the written (sold) call, the Fund will maintain in a segregated account cash or liquid securities equal in value to the difference between the strike price of the call and the price of the futures contract. The Fund may also cover its sale of a call option by taking positions in instruments with prices which are expected to move relatively consistently with the call option. The Fund may cover its sale of a put option on a futures contract by taking a short position in the underlying futures contract at a price greater than or equal to the strike price of the put option, or, if the short position in the underlying futures contract is established at a price less than the strike price of the written put, the Fund will maintain in a segregated account cash or liquid securities equal in value to the difference between the strike price of the put and the price of the futures contract. The Fund may also cover its sale of a put option by taking positions in instruments with prices which are expected to move relatively consistently with the put option.

There are significant risks associated with the Fund's use of futures contracts and related options, including the following: (1) the success of a hedging strategy may depend on the Adviser's ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the securities held by the Fund and the prices of futures and options on futures; (3) there may not be a liquid secondary market for a futures contract or option; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in futures contracts and options on futures. In addition, some strategies reduce the Fund's exposure to price fluctuations, while others tend to increase its market exposure.

Options. The Fund may purchase and write put and call options on indices and enter into related closing transactions. A put option on a security gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security at any time during the option period. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security at any time during the option period. The premium paid to the writer is the consideration for undertaking the obligations under the option contract.

The Fund may purchase and write put and call options on foreign currencies (traded on U.S. and foreign exchanges or over-the-counter markets) to manage its exposure to exchange rates. Call options on foreign currency written by the Fund will be "covered," which means that the Fund will own an equal amount of the underlying foreign currency.

Put and call options on indices are similar to options on securities except that options on an index give the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the underlying index is greater than (or less than, in the case of puts) the exercise price of the option. This amount of cash is equal to the difference between the closing price of the index and the exercise price of the option, expressed in dollars multiplied by a specified number. Thus, unlike options on individual securities, all settlements are in cash, and gain or loss depends on price movements in the particular market represented by the index generally, rather than the price movements in individual securities.

All options written on indices or securities must be covered. When the Fund writes an option on a security, an index or a foreign currency, it will establish a segregated account containing cash or liquid securities in an amount at least equal to the market value of the option and will maintain the account while the option is open or will otherwise cover the transaction.

The Fund may trade put and call options on securities, securities indices and currencies, as the Adviser determines is appropriate in seeking the Fund's investment objective, and except as restricted by the Fund's investment limitations. See "Investment Limitations" below.

The initial purchase (sale) of an option contract is an "opening transaction." In order to close out an option position, the Fund may enter into a "closing transaction," which is simply the sale (purchase) of an option contract on the same security with the same exercise price and expiration date as the option contract originally opened. If the Fund is unable to effect a closing purchase transaction with respect to an option it has written, it will not be able to sell the underlying security until the option expires or the Fund delivers the security upon exercise.

The Fund may purchase put and call options on securities to protect against a decline in the market value of the securities in its portfolio or to anticipate an increase in the market value of securities that the Fund may seek to purchase in the future. The Fund purchasing put and call options pays a premium therefore. If price movements in the underlying securities are such that exercise of the options would not be profitable for the Fund, loss of the premium paid may be offset by an increase in the value of the Fund's securities or by a decrease in the cost of acquisition of securities by the Fund.

The Fund may write covered call options on securities as a means of increasing the yield on its assets and as a means of providing limited protection against decreases in its market value. When the Fund writes an option, if the underlying securities do not increase or decrease to a price level that would make the exercise of the option profitable to the holder thereof, the option generally will expire without being exercised and the Fund will realize as profit the premium received for such option. When a call option of which the Fund is the writer is exercised, the Fund will be required to sell the underlying securities to the option holder at the strike price, and will not participate in any increase in the price of such securities above the strike price. When a put option of which the Fund is the writer is exercised, the Fund will be required to purchase the underlying securities at a price in excess of the market value of such securities.

The Fund may purchase and write options on an exchange or over-the-counter. Over-the-counter options ("OTC" options) differ from exchange-traded options in several respects. They are transacted directly with dealers and not with a clearing corporation, and therefore entail the risk of non-performance by the dealer. OTC options are available for a greater variety of securities and for a wider range of expiration dates and exercise prices than are available for exchange-traded options. Because OTC options are not traded on an exchange, pricing is done normally by reference to information from a market maker. It is the SEC's position that OTC options are generally illiquid.

The market value of an option generally reflects the market price of an underlying security. Other principal factors affecting market value include supply and demand, interest rates, the pricing volatility of the underlying security and the time remaining until the expiration date.

Risks associated with options transactions include: (1) the success of a hedging strategy may depend on an ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect correlation between the movement in prices of options and the securities underlying them; (3) there may not be a liquid secondary market for options; and (4) while the Fund will receive a premium when it writes covered call options, it may not participate fully in a rise in the market value of the underlying security.

Illiquid Investments. Illiquid investments are investments that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Because of their illiquid nature, illiquid investments must be priced at fair value as determined in good faith pursuant to procedures approved by the Board. Despite such good faith efforts to determine fair value prices, the Fund's illiquid investments are subject to the risk that the investment's fair value price may differ from the actual price which the Fund may ultimately realize upon its sale or disposition. Difficulty in selling illiquid investments may result in a loss or may be costly to the Fund. Under the supervision of the Board, the Adviser determines the liquidity of the Fund's investments. The Fund may not acquire an illiquid investment if, immediately after the acquisition, the Fund would have invested more than 15% of its net assets in illiquid investments that are assets.

Restricted Securities. Restricted securities are securities that may not be sold freely to the public absent registration under the Securities Act of 1933, as amended (the "1933 Act"), or an exemption from registration. As consistent with the Fund's investment objective, the Fund may invest in Section 4(a)(2) commercial paper. Section 4(a)(2) commercial paper is issued in reliance on an exemption from registration under Section 4(a)(2) of the 1933 Act and is generally sold to institutional investors who purchase for investment. Any resale of such commercial paper must be in an exempt transaction, usually to an institutional investor through the issuer or investment dealers who make a market in such commercial paper.

Short Sales. As is consistent with the Fund's investment objective, the Fund may engage in short sales that are either "uncovered" or "against the box." A short sale is "against the box" if at all times during which the short position is open, the Fund owns at least an equal amount of the securities or securities convertible into, or exchangeable without further consideration for, securities of the same issue as the securities that are sold short. A short sale against the box is a taxable transaction to the Fund with respect to the securities that are sold short.

Uncovered short sales are transactions under which the Fund sells a security it does not own. To complete such a transaction, the Fund must borrow the security to make delivery to the buyer. The Fund then is obligated to replace the security borrowed by purchasing the security at the market price at the time of the replacement. The price at such time may be more or less than the price at which the security was sold by the Fund. Until the security is replaced, the Fund is required to pay the lender amounts equal to any dividends or interest that accrue during the period of the loan. To borrow the security, the Fund also may be required to pay a premium, which would increase the cost of the security sold. The proceeds of the short sale will be retained by the broker, to the extent necessary to meet margin requirements, until the short position is closed out.

Until the Fund closes its short position or replaces the borrowed security, the Fund will: (a) maintain a segregated account containing cash or liquid securities at such a level that the amount deposited in the account plus the amount deposited with the broker as collateral will equal the current value of the security sold short or (b) otherwise cover the Fund's short position.

Special Risks of Cyber Attacks. As with any entity that conducts business through electronic means in the modern marketplace, the Fund, and its service providers, may be susceptible to operational and information security risks resulting from cyber attacks. Cyber attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized monitoring, release, misuse, loss, destruction or corruption of confidential information, unauthorized access to relevant systems, compromises to networks or devices that the Fund and its service providers use to service the Fund's operations, ransomware, operational disruption or failures in the physical infrastructure or operating systems that support the Fund and its service providers, or various other forms of cyber security breaches. Cyber attacks affecting the Fund or the Adviser, the Fund's distributor, custodian, or any other of the Fund's intermediaries or service providers may adversely impact the Fund and its shareholders, potentially resulting in, among other things, financial losses or the inability of Fund shareholders to transact business. For instance, cyber attacks may interfere with the processing of shareholder transactions, impact the Fund's ability to calculate its net asset value, cause the release of private shareholder information or confidential business information, impede trading, subject the Fund to regulatory fines or financial losses and/or cause reputational damage. The Fund may also incur additional costs for cyber security risk management purposes designed to mitigate or prevent the risk of cyber attacks. Such costs may be ongoing because threats of cyber attacks are constantly evolving as cyber attackers become more sophisticated and their techniques become more complex. Similar types of cyber security risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investments in such companies to lose value. There can be no assurance that the Fund, the Fund's service providers, or the issuers of the securities in which the Fund invests will not suffer losses relating to cyber attacks or other information security breaches in the future.

LIBOR Replacement Risk. The London Inter-Bank Offered Rate (“LIBOR”), which is used extensively in the U.S. and globally as a benchmark or reference rate for various commercial and financial contracts, is expected to be discontinued. The elimination of LIBOR may adversely affect the interest rates on, and value of, certain Fund investments for which the value is tied to LIBOR. Such investments may include bank loans, derivatives, floating rate securities, and other assets or liabilities tied to LIBOR. On July 27, 2017, the U.K. Financial Conduct Authority announced that it intends to stop compelling or inducing banks to submit LIBOR rates after 2021. However, it remains unclear if LIBOR will continue to exist in its current, or a modified, form. Actions by regulators have resulted in the establishment of alternative reference rates to LIBOR in most major currencies. The U.S. Federal Reserve, based on the recommendations of the New York Federal Reserve’s Alternative Reference Rate Committee (comprised of major derivative market participants and their regulators), has begun publishing a Secured Overnight Financing Rate (“SOFR”), which is intended to replace U.S. dollar LIBOR. Alternative reference rates for other currencies have also been announced or have already begun publication. Markets are slowly developing in response to these new rates. Questions around liquidity impacted by these rates, and how to appropriately adjust these rates at the time of transition, remain a concern for the Fund. The effect of any changes to, or discontinuation of, LIBOR on the Fund will vary depending on, among other things, (1) existing fallback or termination provisions in individual contracts and (2) whether, how, and when industry participants develop and adopt new reference rates and fallbacks for both legacy and new products and instruments. The expected discontinuation of LIBOR could have a significant impact on the financial markets in general and may also present heightened risk to market participants, including public companies, investment advisers, other investment companies, and broker-dealers. The risks associated with this discontinuation and transition will be exacerbated if the work necessary to effect an orderly transition to an alternative reference rate is not completed in a timely manner. Accordingly, it is difficult to predict the full impact of the transition away from LIBOR on the Fund until new reference rates and fallbacks for both legacy and new products, instruments and contracts are commercially accepted.

INVESTMENT LIMITATIONS

Fundamental Policies

The following investment limitations are fundamental, which means that the Fund cannot change them without approval by the vote of a majority of the outstanding shares of the Fund. The phrase “majority of the outstanding shares” means the vote of (i) 67% or more of the Fund’s shares present at a meeting, if more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (ii) more than 50% of the Fund’s outstanding shares, whichever is less.

The Fund may not:

1. Concentrate investments in a particular industry or group of industries, as concentration is defined under the 1940 Act, the rules and regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time.

2. Borrow money or issue senior securities (as defined under the 1940 Act), except to the extent permitted under the 1940 Act, the rules and regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time.
3. Make loans, except to the extent permitted under the 1940 Act, the rules and regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time.
4. Purchase or sell commodities or real estate, except to the extent permitted under the 1940 Act, the rules and regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time.
5. Underwrite securities issued by other persons, except to the extent permitted under the 1940 Act, the rules and regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time.

Non-Fundamental Policies

In addition to the investment objective of the Fund, the following investment limitations of the Fund are non-fundamental and may be changed by the Board without shareholder approval.

The Fund may not:

1. Purchase any securities which would cause 25% or more of the total assets of the Fund to be invested in the securities of one or more issuers conducting their principal business activities in the same industry, provided that this limitation does not apply to investments in obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities and repurchase agreements involving such securities. For purposes of this limitation: (i) utility companies will be classified according to their services, for example, gas distribution, gas transmission, electric and telephone will each be considered a separate industry; and (ii) financial service companies will be classified according to the end users of their services, for example, automobile finance, bank finance and diversified finance will each be considered a separate industry.
2. Borrow money from a bank in an amount exceeding 33 1/3% of the value of its total assets, provided that, for purposes of this limitation, investment strategies that either obligate the Fund to purchase securities or require the Fund to segregate assets are not considered to be borrowing. Asset coverage of at least 300%, including the amount borrowed, is required for all borrowing, except where the Fund has borrowed money for temporary purposes in an amount not exceeding 5% of its total assets.
3. Make loans if, as a result, more than 33 1/3% of its total assets would be lent to other parties, except that the Fund may: (i) purchase or hold debt instruments in accordance with its investment objective and policies; (ii) enter into repurchase agreements; and (iii) lend its securities.
4. Purchase or sell real estate, real estate limited partnership interests, physical commodities or commodities contracts except that the Fund may purchase: (i) marketable securities issued by companies which own or invest in real estate (including real estate investment trusts), commodities or commodities contracts; and (ii) commodities contracts relating to financial instruments, such as financial futures contracts and options on such contracts.

Except with respect to Fund policies concerning borrowing, if a percentage restriction is adhered to at the time of an investment, a later increase or decrease in percentage resulting from changes in values or assets will not constitute a violation of such restriction. With respect to the limitation on borrowing, in the event that a subsequent change in net assets or other circumstances cause the Fund to exceed its limitation, the Fund will take steps to bring the aggregate amount of borrowing back within the limitations within three days thereafter (not including Sundays and holidays).

The following descriptions of certain provisions of the 1940 Act may assist investors in understanding the above policies and restrictions:

Concentration. The SEC staff has defined concentration as investing 25% or more of an investment company's total assets in an industry or group of industries, with certain exceptions. For purposes of the Fund's concentration policy, the Fund may classify and re-classify companies in a particular industry and define and re-define industries in any reasonable manner, consistent with SEC and SEC staff guidance.

Borrowing. The 1940 Act presently allows a fund to borrow from any bank in an amount up to 33 1/3% of its total assets (including the amount borrowed) and to borrow for temporary purposes in an amount not exceeding 5% of the value of its total assets.

Senior Securities. Senior securities may include any obligation or instrument issued by a fund evidencing indebtedness. The 1940 Act generally prohibits funds from issuing senior securities, although it does not treat certain transactions as senior securities, such as short sales, firm commitment agreements and standby commitments, with appropriate earmarking or segregation of assets to cover such obligation.

Lending. Under the 1940 Act, a fund may only make loans if expressly permitted by its investment policies.

Underwriting. Under the 1940 Act, underwriting securities involves a fund purchasing securities directly from an issuer for the purpose of selling (distributing) them or participating in any such activity either directly or indirectly. Under the 1940 Act, a diversified fund may not make any commitment as underwriter, if immediately thereafter the amount of its outstanding underwriting commitments, plus the value of its investments in securities of issuers (other than investment companies) of which it owns more than 10% of the outstanding voting securities, exceeds 25% of the value of its total assets.

Commodities and Real Estate. The 1940 Act does not directly restrict an investment company's ability to invest in commodities or real estate, but does require that every investment company have a fundamental investment policy governing such investments.

THE ADVISER

General. Edgewood Management LLC, located at 535 Madison Avenue, 15th Floor, New York, New York 10022, serves as the investment adviser to the Fund. The Adviser is a New York limited liability company formed in 2006 and is the successor to Edgewood Management Company, founded in 1974. Alan Breed is the largest shareholder of Edgewood Management Company I, Inc., the majority owner of the Adviser. The Adviser is a professional investment management firm registered with the SEC under the Investment Advisers Act of 1940, as amended. As of December 31, 2019, the Adviser had approximately \$34.1 billion in assets under management.

Advisory Agreement with the Trust. The Trust and the Adviser have entered into an investment advisory agreement, dated February 27, 2006 (the "Advisory Agreement"). Under the Advisory Agreement, the Adviser serves as investment adviser and makes the investment decisions for the Fund and continuously reviews, supervises and administers the investment program of the Fund, subject to the supervision of, and policies established by, the Board.

After the initial two-year term, the continuance of the Advisory Agreement must be specifically approved at least annually: (i) by the vote of the Trustees or by a vote of the majority of the outstanding voting securities of the Fund; and (ii) by the vote of a majority of the Trustees who are not parties to the Advisory Agreement or "interested persons" of any party thereto, cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or by a majority of the outstanding voting securities of the Fund, or, by the Adviser, on not less than 30 days' nor more than 60 days' written notice to the Trust. As used in the Advisory Agreement, the terms "majority of the outstanding voting securities," "interested persons" and "assignment" have the same meaning as such terms in the 1940 Act.

Advisory Fees Paid to the Adviser. For its services under the Advisory Agreement, the Adviser is entitled to a fee, which is calculated daily and paid twice monthly, at an annual rate of 1.00% of the average daily net assets of the Fund.

The Adviser has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, distribution and/or service (12b-1) fees, shareholder servicing fees, acquired fund fees and expenses and non-routine expenses (collectively, “excluded expenses”)) from exceeding 1.00% of the average daily net assets of each of the Fund’s share classes until February 28, 2021 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the total annual Fund operating expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point total annual Fund operating expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement may be terminated by the Board or by the Adviser, upon ninety (90) days’ prior written notice, effective as of the close of business on February 28, 2021, provided that, in the case of termination by the Adviser, such action shall be authorized by resolution of a majority of the Trustees who are not interested persons of the Trust or by a vote of a majority of the outstanding voting securities of the Trust.

For the fiscal years ended October 31, 2017, 2018 and 2019, the Fund paid the Adviser the following advisory fees:

Contractual Advisory Fees			Fees Waived by the Adviser			Total Fees Paid to the Adviser (After Waivers)		
2017	2018	2019	2017	2018	2019	2017	2018	2019
\$86,183,209	\$128,536,744	\$142,275,666	\$6,073,930	\$7,643,612	\$7,092,503	\$80,109,279	\$120,893,132	\$135,183,163

THE PORTFOLIO MANAGERS

This section includes information about the Fund’s portfolio managers, including information about other accounts they manage, the dollar range of Fund shares they own and how they are compensated.

Compensation. The Adviser compensates the Fund’s portfolio managers for their management of the Fund and other accounts managed by the Adviser. Each of the Fund’s portfolio managers’ compensation consists of a fixed cash salary and retirement plan benefits. The portfolio managers are also paid a discretionary cash bonus which takes into account performance of the products they manage and profitability of the firm. In general, the discretionary cash bonus is determined based on the Fund’s and the other accounts’ pre-tax performance as compared to a particular benchmark over varying time-periods and economic cycles. The bonus also is based on other subjective factors, such as leadership, ideas and overall contributions to the investment team.

Fund Shares Owned by Portfolio Managers. The following table shows the dollar amount range of each portfolio manager’s “beneficial ownership” of shares of the Fund. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended (the “1934 Act”).

Name	Dollar Range of Fund Shares Owned ¹
Alan W. Breed	Over \$1,000,000
Lawrence G. Creel	Over \$1,000,000
Scott Edwardson	Over \$1,000,000
Alexander Farman-Farmaian	Over \$1,000,000
Peter Jennison	Over \$1,000,000
Kevin R. Seth	Over \$1,000,000
Nicholas A. Stephens	Over \$1,000,000

¹ Valuation date is October 31, 2019.

Other Accounts. In addition to the Fund, the portfolio managers may also be responsible for the day-to-day management of certain other accounts, as indicated by the following table. The information below is provided as of October 31, 2019.

Name	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets (Millions)	Number of Accounts	Total Assets (Millions)	Number of Accounts	Total Assets (Millions)
Alan W. Breed	0	\$0	2	\$32	352 ¹	\$3,333
Lawrence G. Creel	0	\$0	4	\$72	274	\$2,540
Scott Edwardson	0	\$0	0	\$0	0	\$0
Alex Farman-Farmaian	0	\$0	5	\$6,027	126 ¹	\$665
Peter Jennison	0	\$0	3	\$30	111 ¹	\$851
Kevin R. Seth	0	\$0	1	\$7	140	\$1,222
Nicholas A. Stephens	0	\$0	0	\$0	227	\$1,434

¹ Includes 8 accounts that are subject to a performance-based advisory fee with aggregated assets under management of \$630 million.

Conflicts of Interest. The Adviser also manages other accounts. The investment process is the same for similar accounts, including the Fund, and is driven by proprietary team-oriented, in-depth, fundamental research. The investment research team is organized by industry coverage and supports all of the accounts managed in each of the Adviser's investment strategies. Each of the Adviser's investment strategies is managed by a portfolio team. Weekly research meetings provide a forum where the Adviser's investment professionals discuss current investment ideas. Generally, the entire portfolio team, or a sub-set of the team, then debates the merits of recommendations, taking into account the prevailing market environment, the portfolio's current composition, and the relative value of alternative investments. Investment decisions are made by majority agreement of the portfolio team.

The portfolio managers' management of "other accounts" may give rise to potential conflicts of interest in connection with their management of the Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. Another potential conflict could include the portfolio managers' knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Personal accounts may give rise to potential conflicts of interest. The Adviser’s employees will, from time to time, for their own account, purchase, sell, hold or own securities or other assets which may be recommended for purchase, sale or ownership for one or more clients. The Adviser has a Code of Ethics which regulates trading in personal accounts. Personal accounts are reported to compliance and certain personal transactions are pre-approved by compliance. Compliance also reviews personal trading activity regularly.

THE ADMINISTRATOR

General. SEI Investments Global Funds Services (the “Administrator”), a Delaware statutory trust, has its principal business offices at One Freedom Valley Drive, Oaks, Pennsylvania 19456. SEI Investments Management Corporation (“SIMC”), a wholly-owned subsidiary of SEI Investments Company (“SEI Investments”), is the owner of all beneficial interest in the Administrator. SEI Investments and its subsidiaries and affiliates, including the Administrator, are leading providers of fund evaluation services, trust accounting systems, and brokerage and information services to financial institutions, institutional investors, and money managers. The Administrator and its affiliates also serve as administrator or sub-administrator to other mutual funds.

Administration Agreement with the Trust. The Trust and the Administrator have entered into an amended and restated administration agreement dated November 13, 2018 (the “Administration Agreement”). Under the Administration Agreement, the Administrator provides the Trust with administrative services, including regulatory reporting and all necessary office space, equipment, personnel and facilities.

The Administration Agreement provides that the Administrator shall not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the matters to which the Administration Agreement relates, except a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Administrator in the performance of its duties or from reckless disregard by it of its duties and obligations thereunder.

Administration Fees Paid to the Administrator. For its services under the Administration Agreement, the Administrator is paid a fee, which varies based on the average daily net assets of the Fund, subject to certain minimums. For the fiscal years ended October 31, 2017, 2018 and 2019, the Fund paid the following amounts for these services:

Administration Fees Paid		
<i>2017</i>	<i>2018</i>	<i>2019</i>
\$3,408,718	\$4,224,727	\$4,040,069

THE DISTRIBUTOR

The Trust and SEI Investments Distribution Co. (the “Distributor”), a wholly-owned subsidiary of SEI Investments and an affiliate of the Administrator, are parties to a distribution agreement dated November 14, 1991, as amended and restated November 14, 2005 and as amended August 30, 2010 and November 13, 2018 (the “Distribution Agreement”), whereby the Distributor acts as principal underwriter for the Trust’s shares. The principal business address of the Distributor is One Freedom Valley Drive, Oaks, Pennsylvania 19456.

The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the majority of the outstanding voting securities of the Trust and (ii) by the vote of a majority of the Trustees who are not “interested persons” of the Trust and have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement will terminate automatically in the event of its assignment (as such term is defined in the 1940 Act), and is terminable at any time without penalty by the Board or by a majority of the outstanding voting securities of the Trust, or by the Distributor, upon not less than 60 days’ written notice to the other party.

PAYMENTS TO FINANCIAL INTERMEDIARIES

Distribution Plan. The Trust has adopted a Distribution Plan with respect to the Retail Shares (the “Plan”) in accordance with the provisions of Rule 12b-1 under the 1940 Act, which regulates circumstances under which an investment company may directly or indirectly bear expenses relating to the distribution of its shares. Continuance of the Plan must be approved annually by a majority of the Trustees and by a majority of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust and have no direct or indirect financial interest in the Plan or in any agreements related to the Plan (“Qualified Trustees”). The Plan requires that quarterly written reports of amounts spent under the Plan and the purposes of such expenditures be furnished to and reviewed by the Trustees. The Plan may not be amended to increase materially the amount that may be spent thereunder without approval by a majority of the outstanding shares of the Fund. All material amendments of the Plan will require approval by a majority of the Trustees and of the Qualified Trustees.

The Plan provides a method of paying for distribution and shareholder services, which may help the Fund grow or maintain asset levels to provide operational efficiencies and economies of scale, provided by the Distributor or other financial intermediaries that enter into agreements with the Distributor. The Fund may make payments to financial intermediaries, such as banks, savings and loan associations, insurance companies, investment counselors, broker-dealers, mutual fund “supermarkets” and the Distributor’s affiliates and subsidiaries, as compensation for services, reimbursement of expenses incurred in connection with distribution assistance or provision of shareholder services. The Distributor may, at its discretion, retain a portion of such payments to compensate itself for distribution services and distribution related expenses such as the costs of preparation, printing, mailing or otherwise disseminating sales literature, advertising, and prospectuses (other than those furnished to current shareholders of the Fund), promotional and incentive programs, and such other marketing expenses that the Distributor may incur.

Under the Plan, the Distributor or financial intermediaries may receive up to 0.25% of the average daily net assets of the Retail Shares as compensation for distribution and shareholder services. The Plan is characterized as a compensation plan since the distribution fee will be paid to the Distributor without regard to the distribution or shareholder service expenses incurred by the Distributor or the amount of payments made to financial intermediaries. The Trust intends to operate the Plan in accordance with its terms and with Financial Industry Regulatory Authority (“FINRA”) rules concerning sales charges.

Payments Under the Distribution Plan. For the fiscal years ended October 31, 2017, 2018 and 2019, the Fund paid the Distributor the following fees:

Share Class	12b-1 Fees Paid			12b-1 Fees Retained by the Distributor		
	2017	2018	2019	2017	2018	2019
Retail Shares	\$984,375	\$1,084,814	\$1,056,503	\$10,023	\$18,360	\$15,701

Shareholder Servicing Plan. The Fund has adopted a shareholder servicing plan under which shareholder servicing fees of up to 0.25% of average daily net assets of the Retail Shares and Service Shares will be paid to financial intermediaries. Under the plan, financial intermediaries may perform, or may compensate other financial intermediaries for performing, certain shareholder and/or administrative services or similar non-distribution services, including: (i) maintaining shareholder accounts; (ii) arranging for bank wires; (iii) responding to shareholder inquiries relating to the services performed by the financial intermediaries; (iv) responding to inquiries from shareholders concerning their investment in the Fund; (v) assisting shareholders in changing dividend options, account designations and addresses; (vi) providing information periodically to shareholders showing their position in the Fund; (vii) forwarding shareholder communications from the Fund such as proxies, shareholder reports, annual reports, and dividend and capital gain distribution and tax notices to shareholders; (viii) processing purchase, exchange and redemption requests from shareholders and placing orders with the Fund or its service providers; (ix) providing sub-accounting services; (x) processing dividend and capital gain payments from the Fund on behalf of shareholders; (xi) preparing tax reports; and (xii) providing such other similar non-distribution services as the Fund may reasonably request to the extent that the financial intermediary is permitted to do so under applicable laws or regulations.

Other Payments by the Fund. The Fund may enter into agreements with financial intermediaries pursuant to which the Fund may pay financial intermediaries for non-distribution-related sub-transfer agency, administrative, sub-accounting, and other shareholder services. Payments made pursuant to such agreements are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by a financial intermediary, or (2) the number of Fund shareholders serviced by a financial intermediary. Any payments made pursuant to such agreements may be in addition to, rather than in lieu of, distribution or shareholder services fees the Fund may pay to financial intermediaries pursuant to the Fund's distribution plan or shareholder servicing plan.

Payments by the Adviser. The Adviser and/or its affiliates, in their discretion, may make payments from their own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates, as incentives to help market and promote the Fund and/or in recognition of their distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Fund, the Distributor or shareholders of the Fund through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing the Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about the Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third party to perform the services.

The Adviser and/or its affiliates may also make payments from their own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in the Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser and/or its affiliates. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

Investors should understand that some financial intermediaries may also charge their clients fees in connection with purchases of shares or the provision of shareholder services.

THE TRANSFER AGENT

DST Systems, Inc., 333 West 11th Street, Kansas City, Missouri 64105 (the “Transfer Agent”), serves as the Fund’s transfer agent and dividend disbursing agent under a transfer agency agreement with the Trust.

THE CUSTODIAN

U.S. Bank National Association, 800 Nicollet Mall, Minneapolis, Minnesota 55402-4302 (the “Custodian”), serves as the custodian of the Fund. The Custodian holds cash, securities and other assets of the Fund as required by the 1940 Act.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Ernst & Young LLP, One Commerce Square, 2005 Market Street, Suite 700, Philadelphia, Pennsylvania 19103, serves as independent registered public accounting firm for the Fund. The financial statements and notes thereto incorporated by reference have been audited by Ernst & Young LLP, as indicated in their report with respect thereto, and are incorporated by reference in reliance on the authority of their report as experts in accounting and auditing.

LEGAL COUNSEL

Morgan, Lewis & Bockius LLP, 1701 Market Street, Philadelphia, Pennsylvania 19103-2921, serves as legal counsel to the Trust.

SECURITIES LENDING

BNP Paribas, acting through its New York Branch, serves as the Fund’s securities lending agent (“Securities Lending Agent”). The services provided to the Fund by the Securities Lending Agent include (i) entering into loans subject to guidelines or restrictions provided by the Fund; (ii) establishing and maintaining collateral accounts; (iii) monitoring daily the value of the loaned securities and collateral; (iv) seeking additional collateral as necessary from borrowers, and returning collateral to borrowers; (v) receiving and holding collateral from borrowers, and facilitating the investment and reinvestment of cash collateral; (vi) negotiating loan terms; (vii) selecting securities to be loaned subject to guidelines or restrictions provided by the Fund; (viii) recordkeeping and account servicing; (ix) monitoring dividend and proxy activity relating to loaned securities; and (x) arranging for return of loaned securities to the Fund at loan termination. Fees for all services provided to the Fund by the Securities Lending Agent are included in the revenue split.

The following table provides the income earned, and fees and/or compensation paid, by the Fund in connection with securities lending activities during the fiscal year ended October 31, 2019.

	Edgewood Growth Fund
Gross income from securities lending activities (including income from cash collateral reinvestment)	\$532,042.79
<i>Fees and/or compensation for securities lending activities and related services</i>	
Fees paid to Securities Lending Agent from a revenue split	\$106,408.56
Fees paid for cash collateral management services (including fees deducted from a pooled cash collateral reinvestment vehicle) not included in the revenue split	None
Administrative fees not included in the revenue split	None
Indemnification fees not included in the revenue split	None
Rebates (paid to borrowers)	None
Other fees not included in the revenue split	None
Aggregate fees and/or compensation for securities lending activities	\$106,408.56
Net income from securities lending activities	\$425,634.23

TRUSTEES AND OFFICERS OF THE TRUST

Board Responsibilities. The management and affairs of the Trust and its series, including the Fund described in this SAI, are overseen by the Trustees. The Board has approved contracts, as described above, under which certain companies provide essential management services to the Trust.

Like most mutual funds, the day-to-day business of the Trust, including the management of risk, is performed by third party service providers, such as the Adviser, the Distributor and the Administrator. The Trustees are responsible for overseeing the Trust's service providers and, thus, have oversight responsibility with respect to risk management performed by those service providers. Risk management seeks to identify and address risks, i.e., events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the funds. The funds and their service providers employ a variety of processes, procedures and controls to identify various possible events or circumstances, to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (e.g., the Adviser is responsible for the day-to-day management of the Fund's portfolio investments) and, consequently, for managing the risks associated with that business. The Board has emphasized to the funds' service providers the importance of maintaining vigorous risk management.

The Trustees' role in risk oversight begins before the inception of a fund, at which time certain of the fund's service providers present the Board with information concerning the investment objectives, strategies and risks of the fund as well as proposed investment limitations for the fund. Additionally, the fund's adviser provides the Board with an overview of, among other things, its investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board continues its oversight function as various personnel, including the Trust's Chief Compliance Officer, as well as personnel of the adviser and other service providers, such as the fund's independent accountants, make periodic reports to the Audit Committee or to the Board with respect to various aspects of risk management. The Board and the Audit Committee oversee efforts by management and service providers to manage risks to which the funds may be exposed.

The Board is responsible for overseeing the nature, extent and quality of the services provided to the funds by the adviser and receives information about those services at its regular meetings. In addition, on an annual basis, in connection with its consideration of whether to renew the advisory agreement with the adviser, the Board meets with the adviser to review such services. Among other things, the Board regularly considers the adviser's adherence to the funds' investment restrictions and compliance with various fund policies and procedures and with applicable securities regulations. The Board also reviews information about the funds' investments, including, for example, reports on the adviser's use of derivatives in managing the funds, if any, as well as reports on the funds' investments in other investment companies, if any.

The Trust's Chief Compliance Officer reports regularly to the Board to review and discuss compliance issues and fund and adviser risk assessments. At least annually, the Trust's Chief Compliance Officer provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; any material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and any material compliance matters since the date of the last report.

The Board receives reports from the funds' service providers regarding operational risks and risks related to the valuation and liquidity of portfolio securities. The Trust's Fair Value Pricing Committee makes regular reports to the Board concerning investments for which market quotations are not readily available. Annually, the independent registered public accounting firm reviews with the Audit Committee its audit of the funds' financial statements, focusing on major areas of risk encountered by the funds and noting any significant deficiencies or material weaknesses in the funds' internal controls. Additionally, in connection with its oversight function, the Board oversees fund management's implementation of disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Trust in its periodic reports with the SEC are recorded, processed, summarized, and reported within the required time periods. The Board also oversees the Trust's internal controls over financial reporting, which comprise policies and procedures designed to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the Trust's financial statements.

From their review of these reports and discussions with the adviser, the Chief Compliance Officer, the independent registered public accounting firm and other service providers, the Board and the Audit Committee learn in detail about the material risks of the funds, thereby facilitating a dialogue about how management and service providers identify and mitigate those risks.

The Board recognizes that not all risks that may affect the funds can be identified and/or quantified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the funds' goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Trustees as to risk management matters are typically summaries of the relevant information. Most of the funds' investment management and business affairs are carried out by or through the funds' adviser and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the funds' and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's ability to monitor and manage risk, as a practical matter, is subject to limitations.

Members of the Board. There are eight members of the Board, six of whom are not interested persons of the Trust, as that term is defined in the 1940 Act ("independent Trustees"). Robert Neshier, an interested person of the Trust, serves as Chairman of the Board. Joseph T. Grause, Jr., an independent Trustee, serves as the lead independent Trustee. The Trust has determined its leadership structure is appropriate given the specific characteristics and circumstances of the Trust. The Trust made this determination in consideration of, among other things, the fact that the independent Trustees constitute a super majority (75%) of the Board, the fact that the chairperson of each Committee of the Board is an independent Trustee, the amount of assets under management in the Trust, and the number of funds (and classes of shares) overseen by the Board. The Board also believes that its leadership structure facilitates the orderly and efficient flow of information to the independent Trustees from fund management.

The Board has two standing committees: the Audit Committee and the Governance Committee. The Audit Committee and the Governance Committee are chaired by an independent Trustee and composed of all of the independent Trustees. In addition, the Board has a lead independent Trustee.

In his role as lead independent Trustee, Mr. Grause, among other things: (i) presides over Board meetings in the absence of the Chairman of the Board; (ii) presides over executive sessions of the independent Trustees; (iii) along with the Chairman of the Board, oversees the development of agendas for Board meetings; (iv) facilitates communication between the independent Trustees and management, and among the independent Trustees; (v) serves as a key point person for dealings between the independent Trustees and management; and (vi) has such other responsibilities as the Board or independent Trustees determine from time to time.

Set forth below are the names, years of birth, position with the Trust and length of time served, and the principal occupations and other directorships held during at least the last five years of each of the persons currently serving as a Trustee. There is no stated term of office for the Trustees. Nevertheless, an independent Trustee must retire from the Board as of the end of the calendar year in which such independent Trustee first attains the age of seventy-five years; provided, however, that, an independent Trustee may continue to serve for one or more additional one calendar year terms after attaining the age of seventy-five years (each calendar year a "Waiver Term") if, and only if, prior to the beginning of such Waiver Term: (1) the Governance Committee (a) meets to review the performance of the independent Trustee; (b) finds that the continued service of such independent Trustee is in the best interests of the Trust; and (c) unanimously approves excepting the independent Trustee from the general retirement policy set out above; and (2) a majority of the Trustees approves excepting the independent Trustee from the general retirement policy set out above. Unless otherwise noted, the business address of each Trustee is SEI Investments Company, One Freedom Valley Drive, Oaks, Pennsylvania 19456.

Name and Year of Birth	Position with Trust and Length of Time Served	Principal Occupations in the Past 5 Years	Other Directorships Held in the Past 5 Years
Interested Trustees			
Robert Nesher (Born: 1946)	Chairman of the Board of Trustees ¹ (since 1991)	SEI employee 1974 to present; currently performs various services on behalf of SEI Investments for which Mr. Nesher is compensated. President, Chief Executive Officer and Trustee of SEI Daily Income Trust, SEI Tax Exempt Trust, SEI Institutional Managed Trust, SEI Institutional International Trust, SEI Institutional Investments Trust, SEI Asset Allocation Trust, Adviser Managed Trust, New Covenant Funds, SEI Insurance Products Trust and SEI Catholic Values Trust. Member of the independent review committee for SEI's Canadian-registered mutual funds to 2017.
---	-------------------------	--	--

1 Denotes Trustees who may be deemed to be “interested” persons of the Fund as that term is defined in the 1940 Act by virtue of their affiliation with the Distributor and/or its affiliates.

Individual Trustee Qualifications

The Trust has concluded that each of the Trustees should serve on the Board because of their ability to review and understand information about the funds provided to them by management, to identify and request other information they may deem relevant to the performance of their duties, to question management and other service providers regarding material factors bearing on the management and administration of the funds, and to exercise their business judgment in a manner that serves the best interests of the funds’ shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on their own experience, qualifications, attributes and skills as described below.

The Trust has concluded that Mr. Neshor should serve as Trustee because of the experience he has gained in his various roles with SEI Investments, which he joined in 1974, his knowledge of and experience in the financial services industry, and the experience he has gained serving as a trustee of the Trust since 1991.

The Trust has concluded that Mr. Klauder should serve as Trustee because of the experience he has gained in his various roles with SEI Investments, which he joined in 2004, his knowledge of and experience in the financial services industry, and the experience he gained serving as a partner of a large law firm.

The Trust has concluded that Mr. Grause should serve as Trustee because of the knowledge and experience he gained in a variety of leadership roles with different financial institutions, his knowledge of the mutual fund and investment management industries, his past experience as an interested trustee and chair of the investment committee for a multi-managed investment company, and the experience he has gained serving as a trustee of the Trust since 2011.

The Trust has concluded that Mr. Johnson should serve as Trustee because of the experience he gained as a senior vice president, corporate finance, of a Fortune 500 company, his experience in and knowledge of the financial services and banking industries, the experience he gained serving as a director of other mutual funds, and the experience he has gained serving as a trustee of the Trust since 2005.

The Trust has concluded that Ms. Krikorian should serve as Trustee because of the experience she gained serving as a legal and financial services consultant, in-house counsel to a large custodian bank and Vice President of Compliance of an investment adviser, her background in fiduciary and banking law, her experience in and knowledge of the financial services industry, and the experience she has gained serving as a trustee of the Trust since 2005.

The Trust has concluded that Mr. Mulhall should serve as Trustee because of the knowledge and experience he gained in a variety of leadership roles with an audit firm and various financial services firms, his experience in and knowledge of the financial services industry, and his experience serving in a variety of leadership capacities for non-profit organizations.

The Trust has concluded that Mr. Specia should serve as Trustee because of the knowledge and experience he gained serving as president of a mutual fund company and portfolio manager for a \$95 billion complex of asset allocation funds, his over 25 years of experience working in a management capacity with mutual fund boards, and the experience he has gained serving as a trustee of the Trust since 2011.

The Trust has concluded that Mr. Sullivan should serve as Trustee because of the experience he gained as a certified public accountant and financial consultant, his experience in and knowledge of public company accounting and auditing and the financial services industry, the experience he gained as an officer of a large financial services firm in its operations department, and his experience from serving as a trustee of the Trust since 1999.

In its periodic assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board's overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the funds.

Board Committees. The Board has established the following standing committees:

- **Audit Committee.** The Board has a standing Audit Committee that is composed of each of the independent Trustees. The Audit Committee operates under a written charter approved by the Board. The principal responsibilities of the Audit Committee include: (i) recommending which firm to engage as each fund's independent registered public accounting firm and whether to terminate this relationship; (ii) reviewing the independent registered public accounting firm's compensation, the proposed scope and terms of its engagement, and the firm's independence; (iii) pre-approving audit and non-audit services provided by each fund's independent registered public accounting firm to the Trust and certain other affiliated entities; (iv) serving as a channel of communication between the independent registered public accounting firm and the Trustees; (v) reviewing the results of each external audit, including any qualifications in the independent registered public accounting firm's opinion, any related management letter, management's responses to recommendations made by the independent registered public accounting firm in connection with the audit, reports submitted to the Committee by the internal auditing department of the Administrator that are material to the Trust as a whole, if any, and management's responses to any such reports; (vi) reviewing each fund's audited financial statements and considering any significant disputes between the Trust's management and the independent registered public accounting firm that arose in connection with the preparation of those financial statements; (vii) considering, in consultation with the independent registered public accounting firm and the Trust's senior internal accounting executive, if any, the independent registered public accounting firms' reports on the adequacy of the Trust's internal financial controls; (viii) reviewing, in consultation with each fund's independent registered public accounting firm, major changes regarding auditing and accounting principles and practices to be followed when preparing each fund's financial statements; and (ix) other audit related matters. Messrs. Grause, Johnson, Mulhall, Specia and Sullivan and Ms. Krikorian currently serve as members of the Audit Committee. Mr. Mulhall serves as the Chairman of the Audit Committee. The Audit Committee meets periodically, as necessary, and met four (4) times during the most recently completed fiscal year.

- **Governance Committee.** The Board has a standing Governance Committee (formerly the Nominating Committee) that is composed of each of the independent Trustees. The Governance Committee operates under a written charter approved by the Board. The principal responsibilities of the Governance Committee include: (i) considering and reviewing Board governance and compensation issues; (ii) conducting a self-assessment of the Board’s operations; (iii) selecting and nominating all persons to serve as independent Trustees; and (iv) reviewing shareholder recommendations for nominations to fill vacancies on the Board if such recommendations are submitted in writing and addressed to the Committee at the Trust’s office. Ms. Krikorian and Messrs. Grause, Johnson, Mulhall, Speca and Sullivan currently serve as members of the Governance Committee. Mr. Speca serves as the Chairman of the Governance Committee. The Governance Committee meets periodically, as necessary, and met four (4) times during the most recently completed fiscal year.

Fair Value Pricing Committee. The Board has also established a standing Fair Value Pricing Committee that is composed of various representatives of the Trust’s service providers, as appointed by the Board. The Fair Value Pricing Committee operates under procedures approved by the Board. The principal responsibility of the Fair Value Pricing Committee is to determine the fair value of securities for which current market quotations are not readily available. The Fair Value Pricing Committee’s determinations are reviewed by the Board.

Fund Shares Owned by Board Members. The following table shows the dollar amount range of each Trustee’s “beneficial ownership” of shares of the Fund as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The Trustees and officers of the Trust own less than 1% of the outstanding shares of the Trust.

1 All funds in the Fund Complex are series of the Trust.

2 Joined the Board on August 20, 2019.

Trust Officers. Set forth below are the names, years of birth, position with the Trust and length of time served, and the principal occupations for the last five years of each of the persons currently serving as executive officers of the Trust. There is no stated term of office for the officers of the Trust. Unless otherwise noted, the business address of each officer is SEI Investments Company, One Freedom Valley Drive, Oaks, Pennsylvania 19456. The Chief Compliance Officer is the only officer who receives compensation from the Trust for his services.

Certain officers of the Trust also serve as officers of one or more mutual funds for which SEI Investments or its affiliates act as investment manager, administrator or distributor.

Name and Year of Birth	Position with Trust and Length of Time Served	Principal Occupations in Past 5 Years
Michael Beattie (Born: 1965)	President (since 2011)	Director of Client Service, SEI Investments, since 2004.
James Bernstein (Born: 1962)	Vice President and Assistant Secretary (since 2017)	Attorney, SEI Investments, since 2017. Prior Positions: Self-employed consultant, 2017. Associate General Counsel & Vice President, Nationwide Funds Group and Nationwide Mutual Insurance Company, from 2002 to 2016. Assistant General Counsel & Vice President, Market Street Funds and Provident Mutual Insurance Company, from 1999 to 2002.
John Bourgeois (Born: 1973)	Assistant Treasurer (since 2017)	Fund Accounting Manager, SEI Investments, since 2000.
Stephen Connors (Born: 1984)	Treasurer, Controller and Chief Financial Officer (since 2015)	Director, SEI Investments, Fund Accounting, since 2014. Audit Manager, Deloitte & Touche LLP, from 2011 to 2014.

Russell Emery (Born: 1962)	Chief Compliance Officer (since 2006)	Chief Compliance Officer of SEI Structured Credit Fund, LP since 2007. Chief Compliance Officer of The Advisors' Inner Circle Fund, The Advisors' Inner Circle Fund II, Bishop Street Funds, The KP Funds, Frost Family of Funds, The Advisors' Inner Circle Fund III, Gallery Trust, Schroder Series Trust, Schroder Global Series Trust, SEI Institutional Managed Trust, SEI Asset Allocation Trust, SEI Institutional International Trust, SEI Institutional Investments Trust, SEI Daily Income Trust, SEI Tax Exempt Trust, Adviser Managed Trust, New Covenant Funds, SEI Insurance Products Trust and SEI Catholic Values Trust. Chief Compliance Officer of O'Connor EQUUS (closed-end investment company) to 2016. Chief Compliance Officer of SEI Liquid Asset Trust to 2016. Chief Compliance Officer of Winton Series Trust to 2017. Chief Compliance Officer of Winton Diversified Opportunities Fund (closed-end investment company) to 2018.
Eric C. Griffith (Born: 1969)	Vice President and Assistant Secretary (since 2019)	Counsel at SEI Investments since 2019. Vice President and Assistant General Counsel, JPMorgan Chase & Co., from 2012 to 2018.
Matthew M. Maher (Born: 1975)	Vice President (since 2018) Secretary (Since 2020)	Counsel at SEI Investments since 2018. Attorney, Blank Rome LLP, from 2015 to 2018. Assistant Counsel & Vice President, Bank of New York Mellon, from 2013 to 2014. Attorney, Dilworth Paxson LLP, from 2006 to 2013.
Robert Morrow (Born: 1968)	Vice President (since 2017)	Account Manager, SEI Investments, since 2007.
Bridget E. Sudall (Born: 1980)	Anti-Money Laundering Compliance Officer and Privacy Officer (since 2015)	Senior Associate and AML Officer, Morgan Stanley Alternative Investment Partners, from 2011 to 2015. Investor Services Team Lead, Morgan Stanley Alternative Investment Partners, from 2007 to 2011.

PURCHASING AND REDEEMING SHARES

Purchases and redemptions may be made through the Transfer Agent on any day the New York Stock Exchange (the “NYSE”) is open for business. Shares of the Fund are offered and redeemed on a continuous basis. Currently, the Trust is closed for business when the following holidays are observed: New Year’s Day, Martin Luther King Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

It is currently the Trust’s policy to pay all redemptions in cash. The Trust retains the right, however, to alter this policy to provide for redemptions in whole or in part by a distribution in-kind of securities held by the Fund in lieu of cash. Shareholders may incur brokerage charges on the sale of any such securities so received in payment of redemptions. A shareholder will at all times be entitled to aggregate cash redemptions from all funds of the Trust up to the lesser of \$250,000 or 1% of the Trust’s net assets during any 90-day period.

The Trust reserves the right to suspend the right of redemption and/or to postpone the date of payment upon redemption for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, for any period on which trading on the NYSE is restricted (as determined by the SEC by rule or regulation), or during the existence of an emergency (as determined by the SEC by rule or regulation) as a result of which disposal or valuation of the Fund’s securities is not reasonably practicable, or for such other periods as the SEC has by order permitted. The Trust also reserves the right to suspend sales of shares of the Fund for any period during which the NYSE, the Adviser, the Administrator, the Transfer Agent and/or the Custodian are not open for business.

DETERMINATION OF NET ASSET VALUE

General Policy. The Fund adheres to Section 2(a)(41), and Rule 2a-4 thereunder, of the 1940 Act with respect to the valuation of portfolio securities. In general, securities for which market quotations are readily available are valued at current market value, and all other securities are valued at fair value in accordance with procedures adopted by the Board. In complying with the 1940 Act, the Trust relies on guidance provided by the SEC and by the SEC staff in various interpretive letters and other guidance.

Equity Securities. Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. Eastern Time if such exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If such prices are not available or determined to not represent the fair value of the security as of the Fund’s pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Board.

Money Market Securities and other Debt Securities. If available, money market securities and other debt securities are priced based upon valuations provided by recognized independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings and developments relating to specific securities in arriving at valuations. Money market securities and other debt securities with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. If such prices are not available or determined to not represent the fair value of the security as of the Fund’s pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Board.

Foreign Securities. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Exchange rates are provided daily by recognized independent pricing agents.

Derivatives and Other Complex Securities. Exchange traded options on securities and indices purchased by the Fund generally are valued at their last trade price or, if there is no last trade price, the last bid price. Exchange traded options on securities and indices written by the Fund generally are valued at their last trade price or, if there is no last trade price, the last asked price. In the case of options traded in the over-the-counter market, if the OTC option is also an exchange traded option, the Fund will follow the rules regarding the valuation of exchange traded options. If the OTC option is not also an exchange traded option, the Fund will value the option at fair value in accordance with procedures adopted by the Board.

Futures and swaps cleared through a central clearing house (“centrally cleared swaps”) are valued at the settlement price established each day by the board of the exchange on which they are traded. The daily settlement prices for financial futures are provided by an independent source. On days when there is excessive volume or market volatility, or the future or centrally cleared swap does not end trading by the time the Fund calculates net asset value, the settlement price may not be available at the time at which the Fund calculates its net asset value. On such days, the best available price (which is typically the last sales price) may be used to value the Fund’s futures or centrally cleared swaps position.

Foreign currency forward contracts are valued at the current day’s interpolated foreign exchange rate, as calculated using the current day’s spot rate, and the thirty, sixty, ninety and one-hundred eighty day forward rates provided by an independent source.

If available, non-centrally cleared swaps, collateralized debt obligations, collateralized loan obligations and bank loans are priced based on valuations provided by an independent third party pricing agent. If a price is not available from an independent third party pricing agent, the security will be valued at fair value as determined in good faith using methods approved by the Board.

Use of Third-Party Independent Pricing Agents and Independent Brokers. Pursuant to contracts with the Administrator, prices for most securities held by the Fund are provided daily by third-party independent pricing agents that are approved by the Board. The valuations provided by third-party independent pricing agents are reviewed daily by the Administrator.

If a security price cannot be obtained from an independent, third-party pricing agent, the Administrator shall seek to obtain a bid price from at least one independent broker.

Fair Value Procedures. Securities for which market prices are not “readily available” or which cannot be valued using the methodologies described above are valued in accordance with Fair Value Procedures established by the Board and implemented through the Fair Value Pricing Committee. The members of the Fair Value Pricing Committee report, as necessary, to the Board regarding portfolio valuation determinations. The Board, from time to time, will review these methods of valuation and will recommend changes which may be necessary to assure that the investments of the Fund are valued at fair value.

Some of the more common reasons that may necessitate a security being valued using Fair Value Procedures include: the security’s trading has been halted or suspended; the security has been de-listed from a national exchange; the security’s primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security’s primary pricing source is not able or willing to provide a price; trading of the security is subject to local government-imposed restrictions; or a significant event with respect to a security has occurred after the close of the market or exchange on which the security principally trades and before the time the Fund calculates net asset value. When a security is valued in accordance with the Fair Value Procedures, the Fair Value Pricing Committee will determine the value after taking into consideration relevant information reasonably available to the Fair Value Pricing Committee.

TAXES

The following is only a summary of certain additional U.S. federal income tax considerations generally affecting the Fund and its shareholders that is intended to supplement the discussion contained in the Prospectus. The discussion is based on the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended as a substitute for careful tax planning. Shareholders are urged to consult their tax advisors with specific reference to their own tax situations, including their state, local, and foreign tax liabilities.

The Tax Cuts and Jobs Act (the “Tax Act”) made significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules applicable to a RIC, such as the Fund. The Tax Act, however, made numerous other changes to the tax rules that may affect shareholders and the Fund. You are urged to consult your own tax advisor regarding how the Tax Act affects your investment in the Fund.

Qualification as a Regulated Investment Company. The Fund has elected and intends to qualify to be treated as a RIC. By following such a policy, the Fund expects to eliminate or reduce to a nominal amount the federal taxes to which it may be subject. If the Fund qualifies as a RIC, it will generally not be subject to federal income taxes on the net investment income and net realized capital gains that it timely distributes to its shareholders. The Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such course of action to be beneficial to shareholders.

In order to qualify as a RIC under the Code, the Fund must distribute annually to its shareholders at least 90% of its net investment income (which, includes dividends, taxable interest and the excess of net short-term capital gains over net long-term capital losses, less operating expenses) and at least 90% of its net tax exempt interest income, for each tax year, if any (the “Distribution Requirement”) and also must meet certain additional requirements. Among these requirements are the following: (i) at least 90% of the Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans and gains from the sale or other disposition of stock, securities, or foreign currencies, or other income (including but not limited to certain gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and net income derived from an interest in a qualified publicly traded partnership (the “Qualifying Income Test”); and (ii) at the close of each quarter of the Fund’s taxable year: (A) at least 50% of the value of its total assets must be represented by cash and cash items, U.S. government securities, securities of other RICs and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater than 5% of the value of the Fund’s total assets and that does not represent more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (B) not more than 25% of the value of its total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities (other than U.S. government securities or securities of other RICs) of any one issuer or the securities (other than the securities of another RIC) of two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Asset Test”).

Although the Fund intends to distribute substantially all of its net investment income and may distribute its capital gains for any taxable year, the Fund will be subject to federal income taxation to the extent any such income or gains are not distributed.

If the Fund fails to satisfy the Qualifying Income or Asset Tests in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the diversification requirements where the Fund corrects the failure within a specified period. If the Fund fails to maintain qualification as a RIC for a tax year, and the relief provisions are not available, the Fund will be subject to federal income tax at the regular corporate rate (which the Tax Act reduced to 21%) without any deduction for distributions to shareholders. In such case, its shareholders would be taxed as if they received ordinary dividends, although corporate shareholders could be eligible for the dividends received deduction (subject to certain limitations) and individuals may be able to benefit from the lower tax rates available to qualified dividend income. In addition, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest, and make substantial distributions before requalifying as a RIC.

The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A “qualified late year loss” generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as “post-October losses”) and certain other late-year losses.

The treatment of capital loss carryovers for the Fund is similar to the rules that apply to capital loss carryovers for individuals, which provide that such losses are carried over indefinitely. If the Fund has a “net capital loss” (that is, capital losses in excess of capital gains), the excess of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

Federal Excise Tax. Notwithstanding the Distribution Requirement described above, which generally requires the Fund to distribute at least 90% of its annual investment company taxable income and the excess of its exempt interest income (but does not require any minimum distribution of net capital gain), the Fund will be subject to a nondeductible 4% federal excise tax to the extent it fails to distribute, by the end of the calendar year at least 98% of its ordinary income and 98.2% of its capital gain net income (the excess of short- and long-term capital gains over short- and long-term capital losses) for the one-year period ending on October 31 of such year (including any retained amount from the prior calendar year on which the Fund paid no federal income tax). The Fund intends to make sufficient distributions to avoid liability for federal excise tax, but can make no assurances that such tax will be completely eliminated. The Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the Adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

Distributions to Shareholders. The Fund receives income generally in the form of dividends and interest on investments. This income, plus net short-term capital gains, if any, less expenses incurred in the operation of the Fund, constitutes the Fund’s net investment income from which dividends may be paid to you. Any distributions by the Fund from such income will be taxable to you as ordinary income or at the lower capital gains rates that apply to individuals receiving qualified dividend income, whether you take them in cash or in additional shares.

Distributions by the Fund are currently eligible for the reduced maximum tax rate to individuals currently set at 20% (lower rates apply to individuals in lower tax brackets) to the extent that the Fund receives qualified dividend income on the securities it holds and the Fund reports the distributions as qualified dividend income. Qualified dividend income is, in general, dividend income from taxable domestic corporations and certain foreign corporations (e.g., foreign corporations incorporated in a possession of the United States or in certain countries with a comprehensive tax treaty with the United States, or the stock of which is readily tradable on an established securities market in the United States). A dividend will not be treated as qualified dividend income to the extent that: (i) the shareholder has not held the shares on which the dividend was paid for more than 60 days during the 121-day period that begins on the date that is 60 days before the date on which the shares become “ex-dividend” (which is the day on which declared distributions (dividends or capital gains) are deducted from the Fund’s assets before it calculates the net asset value) with respect to such dividend, (ii) the Fund has not satisfied similar holding period requirements with respect to the securities it holds that paid the dividends distributed to the shareholder, (iii) the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to substantially similar or related property, or (iv) the shareholder elects to treat such dividend as investment income under section 163(d)(4)(B) of the Code. Therefore, if you lend your shares in the Fund, such as pursuant to a securities lending arrangement, you may lose the ability to treat dividends (paid while the shares are held by the borrower) as qualified dividend income.

Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Capital gain distributions consisting of the Fund's net capital gains will be taxable as long-term capital gains for individual shareholders currently set at a maximum rate of 20% regardless of how long you have held your shares in the Fund. Distributions from capital gains are generally made after applying any available capital loss carryforwards.

In the case of corporate shareholders, the Fund's distributions (other than capital gain distributions) generally qualify for the dividends received deduction to the extent such distributions are so reported and do not exceed the gross amount of qualifying dividends received by the Fund for the year. Generally, and subject to certain limitations (including certain holding period limitations), a dividend will be treated as a qualifying dividend if it has been received from a domestic corporation.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If the Fund's distributions exceed its taxable income and capital gains realized during a taxable year, all or a portion of the distributions made in the same taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in the Fund and result in a higher reported capital gain or lower reported capital loss when those shares on which the distribution was received are sold.

A dividend or distribution received shortly after the purchase of shares reduces the net asset value of the shares by the amount of the dividend or distribution and, although in effect a return of capital, will be taxable to the shareholder. If the net asset value of shares were reduced below the shareholder's cost by dividends or distributions representing gains realized on sales of securities, such dividends or distributions would be a return of investment though taxable to the shareholder in the same manner as other dividends or distributions.

The Fund (or its administrative agent) will inform you of the amount of your ordinary income dividends, qualified dividend income and capital gain distributions, if any, and will advise you of their tax status for federal income tax purposes shortly after the close of each calendar year. If you have not held your shares for a full year, the Fund may designate and distribute to you, as ordinary income, qualified dividend income or capital gain, a percentage of income that is not equal to the actual amount of such income earned during the period of your investment in the Fund.

Dividends declared to shareholders of record in October, November or December and actually paid in January of the following year will be treated as having been received by shareholders on December 31 of the calendar year in which declared. Under this rule, therefore, a shareholder may be taxed in one year on dividends or distributions actually received in January of the following year.

Sales, Exchanges or Redemptions. Any gain or loss recognized on a sale, exchange, or redemption of shares of the Fund by a shareholder who is not a dealer in securities will generally, for individual shareholders, be treated as a long-term capital gain or loss if the shares have been held for more than twelve months and otherwise will be treated as a short-term capital gain or loss. However, if shares on which a shareholder has received a net capital gain distribution are subsequently sold, exchanged, or redeemed and such shares have been held for six months or less, any loss recognized will be treated as a long-term capital loss to the extent of the net capital gain distribution. In addition, the loss realized on a sale or other disposition of shares will be disallowed to the extent a shareholder repurchases (or enters into a contract to or option to repurchase) shares within a period of 61 days (beginning 30 days before and ending 30 days after the disposition of the shares). This loss disallowance rule will apply to shares received through the reinvestment of dividends during the 61-day period.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale or exchange of shares of the Fund).

The Fund (or its administrative agent) must report to the Internal Revenue Service (“IRS”) and furnish to Fund shareholders the cost basis information for Fund shares purchased on or after January 1, 2012, and sold on or after that date. In addition to the requirement to report the gross proceeds from the sale of Fund shares, the Fund is also required to report the cost basis information for such shares and indicate whether these shares had a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit Fund shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Fund will use the average cost basis method as its default cost basis method. The cost basis method elected by the Fund shareholder (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about cost basis reporting. Shareholders also should carefully review the cost basis information provided to them and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

Tax Treatment of Complex Securities. The Fund may invest in complex securities and these investments may be subject to numerous special and complex tax rules. These rules could affect the Fund’s ability to qualify as a RIC, affect whether gains and losses recognized by the Fund are treated as ordinary income or capital gain, accelerate the recognition of income to the Fund and/or defer the Fund’s ability to recognize losses, and, in limited cases, subject the Fund to U.S. federal income tax on income from certain of its foreign securities. In turn, these rules may affect the amount, timing or character of the income distributed to you by the Fund.

The Fund is required for federal income tax purposes to mark-to-market and recognize as income for each taxable year its net unrealized gains and losses on certain futures and options contracts subject to section 1256 of the Code (“Section 1256 Contracts”) as of the end of the year as well as those actually realized during the year. Gain or loss from Section 1256 Contracts on broad-based indexes required to be marked to market will be 60% long-term and 40% short-term capital gain or loss. Application of this rule may alter the timing and character of distributions to shareholders. The Fund may be required to defer the recognition of losses on Section 1256 Contracts to the extent of any unrecognized gains on offsetting positions held by the Fund. These provisions may also require the Fund to mark-to-market certain types of positions in its portfolio (i.e., treat them as if they were closed out), which may cause the Fund to recognize income without receiving cash with which to make distributions in amounts necessary to satisfy the Distribution Requirement and for avoiding the excise tax discussed above. Accordingly, in order to avoid certain income and excise taxes, the Fund may be required to liquidate its investments at a time when the Adviser might not otherwise have chosen to do so.

Foreign Taxes. Dividends and interest received by the Fund may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions that would reduce the yield on the Fund’s stock or securities. Tax conventions between certain countries and the United States may reduce or eliminate these taxes. Foreign countries generally do not impose taxes on capital gains with respect to investments by foreign investors.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k)s, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Under the Tax Act, tax-exempt entities are not permitted to offset losses from one trade or business against the income or gain of another trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by its tax-exempt shareholders. However, notwithstanding the foregoing, the tax-exempt shareholder could realize UBTI by virtue of an investment in the Fund where, for example: (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Fund invests in a real estate investment trust that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisor. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult their tax advisors regarding these issues.

The Fund’s shares held in a tax-qualified retirement account will generally not be subject to federal taxation on income and capital gains distributions from the Fund until a shareholder begins receiving payments from the retirement account. Because each shareholder’s tax situation is different, shareholders should consult their tax advisors about the tax implications of an investment in the Fund.

Backup Withholding. The Fund will be required in certain cases to withhold at a 24% withholding rate and remit to the U.S. Treasury the amount withheld on amounts payable to any shareholder who: (i) has provided the Fund either an incorrect tax identification number or no number at all; (ii) is subject to backup withholding by the IRS for failure to properly report payments of interest or dividends; (iii) has failed to certify to the Fund that such shareholder is not subject to backup withholding; or (iv) has failed to certify to the Fund that the shareholder is a U.S. person (including a resident alien).

Non-U.S. Investors. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (i.e., nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of shares of the Fund generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described above. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Under legislation generally known as “FATCA” (the Foreign Account Tax Compliance Act), the Fund is required to withhold 30% of certain ordinary dividends it pays to shareholders that fail to meet prescribed information reporting or certification requirements. In general, no such withholding will be required with respect to a U.S. person or non-U.S. person that timely provides the certifications required by the Fund or its agent on a valid IRS Form W-9 or applicable IRS Form W-8, respectively. Shareholders potentially subject to withholding include foreign financial institutions (“FFIs”), such as non-U.S. investment funds, and non-financial foreign entities (“NFFEs”). To avoid withholding under FATCA, an FFI generally must enter into an information sharing agreement with the IRS in which it agrees to report certain identifying information (including name, address, and taxpayer identification number) with respect to its U.S. account holders (which, in the case of an entity shareholder, may include its direct and indirect U.S. owners), and an NFFE generally must identify and provide other required information to the Fund or other withholding agent regarding its U.S. owners, if any. Such non-U.S. shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by regulations and other guidance. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the U.S. to implement FATCA will be exempt from FATCA withholding provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

A non-U.S. entity that invests in the Fund will need to provide the Fund with documentation properly certifying the entity's status under FATCA in order to avoid FATCA withholding. Non-U.S. investors in the Fund should consult their tax advisors in this regard.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, generally, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC such as the Fund are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

State Taxes. Depending upon state and local law, distributions by the Fund to its shareholders and the ownership of such shares may be subject to state and local taxes. Rules of state and local taxation of dividend and capital gains distributions from RICs often differ from the rules for federal income taxation described above. It is expected that the Fund will not be liable for any corporate excise, income or franchise tax in Massachusetts if it qualifies as a RIC for federal income tax purposes.

Many states grant tax-free status to dividends paid to you from interest earned on direct obligations of the U.S. government, subject in some states to minimum investment requirements that must be met by the Fund. Investment in Ginnie Mae or Fannie Mae securities, banker's acceptances, commercial paper, and repurchase agreements collateralized by U.S. government securities do not generally qualify for such tax-free treatment. The rules on exclusion of this income are different for corporate shareholders. Shareholders are urged to consult their tax advisors regarding state and local taxes applicable to an investment in the Fund.

FUND TRANSACTIONS

Brokerage Transactions. Generally, equity securities, both listed and over-the-counter, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, the Adviser may place a combined order for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of the Adviser that the advantages of combined orders outweigh the possible disadvantages of combined orders.

For the fiscal years ended October 31, 2017, 2018 and 2019, the Fund paid the following aggregate brokerage commissions on portfolio transactions:

Aggregate Dollar Amount of Brokerage Commissions Paid		
<i>2017</i>	<i>2018</i>	<i>2019</i>
\$2,024,610	\$2,072,540	\$3,518,575

Brokerage Selection. The Trust does not expect to use one particular broker or dealer, and when one or more brokers is believed capable of providing the best combination of price and execution, the Adviser may select a broker based upon brokerage or research services provided to the Adviser. The Adviser may pay a higher commission than otherwise obtainable from other brokers in return for such services only if a good faith determination is made that the commission is reasonable in relation to the services provided.

Section 28(e) of the 1934 Act permits the Adviser, under certain circumstances, to cause the Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to its investment decision-making processes and, therefore, to the Fund.

To the extent that research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser under the Advisory Agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases the Adviser may receive a service from a broker that has both a “research” and a “non-research” use. When this occurs, the Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser faces a potential conflict of interest, but the Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Adviser may purchase new issues of securities for clients, including the Fund, in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities, provide the Adviser with research services. FINRA has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research “credits” in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

During the fiscal year ended October 31, 2019, the Fund paid the following commissions on brokerage transactions directed to brokers pursuant to an agreement or understanding whereby the broker provides research services to the Adviser:

Total Dollar Amount of Brokerage Commissions for Research Services¹	Total Dollar Amount of Transactions Involving Brokerage Commissions for Research Services
\$1,025,623	\$1,974,178,370

1 Reported numbers only include commissions paid for an identified research service as part of an unbundled brokerage relationship and do not include any commissions paid for research services as part of bundled commissions for which the research portion is not distinguishable from the execution portion.

Brokerage with Fund Affiliates. The Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of either the Fund or the Adviser for a commission in conformity with the 1940 Act and rules promulgated by the SEC. The 1940 Act requires that commissions paid to the affiliate by the Fund for exchange transactions not exceed “usual and customary” brokerage commissions. The rules define “usual and customary” commissions to include amounts which are “reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Trustees, including those who are not “interested persons” of the Fund, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

For the fiscal years ended October 31, 2017, 2018 and 2019, the Fund did not pay any brokerage commissions on portfolio transactions effected by affiliated brokers.

Securities of “Regular Broker-Dealers.” The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) that the Fund held during its most recent fiscal year. During the fiscal year ended October 31, 2019, the Fund did not hold any securities of its “regular brokers and dealers.”

Portfolio Turnover Rates. Portfolio turnover is calculated by dividing the lesser of total purchases or sales of portfolio securities for the fiscal year by the monthly average value of portfolio securities owned during the fiscal year. Excluded from both the numerator and denominator are amounts relating to securities whose maturities at the time of acquisition were one year or less. Instruments excluded from the calculation of portfolio turnover generally would include the futures contracts in which the Fund may invest since such contracts generally have remaining maturities of less than one-year. The Fund may at times hold investments in other short-term instruments, such as repurchase agreements, which are excluded for purposes of computing portfolio turnover.

For the fiscal years ended October 31, 2018 and 2019, the Fund’s portfolio turnover rates were as follows:

Portfolio Turnover Rates	
<i>2018</i>	<i>2019</i>
19%	25%

PORTFOLIO HOLDINGS

The Board has approved policies and procedures that govern the timing and circumstances regarding the disclosure of Fund portfolio holdings information to shareholders and third parties. These policies and procedures are designed to ensure that disclosure of information regarding the Fund's portfolio securities is in the best interests of Fund shareholders, and include procedures to address conflicts between the interests of the Fund's shareholders, on the one hand, and those of the Fund's Adviser, principal underwriter or any affiliated person of the Fund, the Adviser, or its principal underwriter, on the other. Pursuant to such procedures, the Board has authorized the Adviser's Chief Compliance Officer (the "Authorized Person") to authorize the release of the Fund's portfolio holdings, as necessary, in conformity with the foregoing principles. The Authorized Person reports at least quarterly to the Board regarding the implementation of such policies and procedures.

Pursuant to applicable law, the Fund is required to disclose its complete portfolio holdings quarterly, within 60 days of the end of each fiscal quarter (currently, each January 31, April 30, July 31 and October 31). The Fund discloses a complete schedule of investments in its Semi-Annual and Annual Reports which are distributed to the Fund's shareholders. The Fund's complete schedule of investments following the first and third fiscal quarters will be available in quarterly holdings reports filed with the SEC on Form N-Q or as exhibits to Form N-PORT, and the Fund's complete schedule of investments following the second and fourth fiscal quarters will be available in shareholder reports filed with the SEC on Form N-CSR. Complete schedules of investments filed with the SEC on Form N-Q, Form N-CSR, and as exhibits to Form N-PORT, are not distributed to Fund shareholders, but are available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov.

The Fund provides information about its complete portfolio holdings on the internet at <http://aicfundholdings.com/edgewood>. This information is provided on a quarterly basis, sixty (60) days after the end of the fiscal quarter, and is publicly available to all shareholders until updated to reflect the next applicable period. The Adviser may exclude any portion of the Fund's portfolio holdings from publication when deemed to be in the best interest of the Fund. The Fund may provide ratings and rankings organizations with the same information at the same time it is filed with the SEC or one day after it is made available on the internet web site.

The Fund's policies and procedures provide that the Authorized Person may authorize disclosure of portfolio holdings information to third parties at differing times and/or with different lag times than the information posted to the internet, provided that the recipient is, either by contractual agreement or otherwise by law, (i) required to maintain the confidentiality of the information and (ii) prohibited from using the information to facilitate or assist in any securities transactions or investment program. No compensation or other consideration is paid to or received by any party in connection with the disclosure of portfolio holdings information, including the Fund, Adviser and its affiliates or recipients of the Fund's portfolio holdings information. The Fund will review a third party's request for portfolio holdings information to determine whether the third party has legitimate business objectives in requesting such information. Legitimate business objectives may include but are not necessarily limited to: disclosure for required due diligence purposes; disclosure to a newly hired investment adviser or sub-adviser; or disclosure to a rating agency for use in developing a rating.

The Adviser currently has an arrangement to provide Fund portfolio holdings information to a third party prior to the date on which portfolio holdings information is posted on the Fund's web site. Under this arrangement, the Adviser provides Fund portfolio holdings information as of the end of each calendar quarter, generally within 10 days after the quarter end, to Dakota Funds Group. The information provided to this third party, until made publicly available, is considered confidential and will not be distributed to the public nor traded upon. The Fund believes this disclosure serves a legitimate business purpose. No compensation is received by the Fund or the Adviser in connection with the disclosure of portfolio holdings information. The Trust's Chief Compliance Officer will regularly review these arrangements and will make periodic reports to the Board regarding disclosure pursuant to such arrangements.

In addition, the Fund's service providers, such as the Custodian, Administrator and Transfer Agent, may receive portfolio holdings information as frequently as daily in connection with their services to the Fund. In addition to any contractual provisions relating to confidentiality of information that may be included in the service providers contract with the Trust, these arrangements impose obligations on the Fund's service providers that would prohibit them from disclosing or trading on the Fund's non-public information. Financial printers and pricing information vendors may receive portfolio holdings information, as necessary, in connection with their services to the Fund.

The Adviser may manage other accounts that are not subject to these policies and procedures with investment objectives and strategies that are substantially similar to those of the Fund. Because the portfolio holdings of such accounts may be substantially similar, and in some cases nearly identical, to those of the Fund, an investor in such an account may be able to infer the portfolio holdings of the Fund from the portfolio holdings of the account.

DESCRIPTION OF SHARES

The Declaration of Trust authorizes the issuance of an unlimited number of funds and shares of each fund. Each share of a fund represents an equal proportionate interest in that fund with each other share. Shares are entitled upon liquidation to a pro rata share in the net assets of the fund. Shareholders have no preemptive rights. The Declaration of Trust provides that the Board may create additional series or classes of shares. All consideration received by the Trust for shares of any fund and all assets in which such consideration is invested would belong to that fund and would be subject to the liabilities related thereto. Share certificates representing shares will not be issued. The Fund's shares, when issued, are fully paid and non-assessable.

SHAREHOLDER LIABILITY

The Trust is an entity of the type commonly known as a "Massachusetts business trust." Under Massachusetts law, shareholders of such a trust could, under certain circumstances, be held personally liable as partners for the obligations of the trust. Even if, however, the Trust were held to be a partnership, the possibility of the shareholders incurring financial loss for that reason appears remote because the Declaration of Trust contains an express disclaimer of shareholder liability for obligations of the Trust and requires that notice of such disclaimer be given in each agreement, obligation or instrument entered into or executed by or on behalf of the Trust or the Trustees, and because the Declaration of Trust provides for indemnification out of the Trust property for any shareholder held personally liable for the obligations of the Trust.

LIMITATION OF TRUSTEES' LIABILITY

The Declaration of Trust provides that a Trustee shall be liable only for his or her own willful defaults and, if reasonable care has been exercised in the selection of officers, agents, employees or investment advisers, shall not be liable for any neglect or wrongdoing of any such person. The Declaration of Trust also provides that the Trust will indemnify its Trustees and officers against liabilities and expenses incurred in connection with actual or threatened litigation in which they may be involved because of their offices with the Trust unless it is determined in the manner provided in the Declaration of Trust that they have not acted in good faith in the reasonable belief that their actions were in the best interests of the Trust. However, nothing in the Declaration of Trust shall protect or indemnify a Trustee against any liability for his or her willful misfeasance, bad faith, gross negligence or reckless disregard of his or her duties. Nothing contained in this section attempts to disclaim a Trustee's individual liability in any manner inconsistent with the federal securities laws.

PROXY VOTING

The Board has delegated responsibility for decisions regarding proxy voting for securities held by the Fund to the Adviser. The Adviser will vote such proxies in accordance with its proxy voting policies and procedures, which are included in Appendix B to this SAI.

The Trust is required to disclose annually the Fund's complete proxy voting record during the most recent 12-month period ended June 30 on Form N-PX. This voting record is available: (i) without charge, upon request, by calling 1-800-791-4226; and (ii) on the SEC's website at <http://www.sec.gov>.

CODES OF ETHICS

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser, the Distributor and the Administrator have adopted Codes of Ethics pursuant to Rule 17j-1. These Codes of Ethics (each a "Code of Ethics" and together the "Codes of Ethics") apply to the personal investing activities of trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to invest in securities, including securities that may be purchased or held by the Fund, but are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements or are prohibited from making such investments. Copies of these Codes of Ethics are on file with the SEC, and are available to the public.

PRINCIPAL SHAREHOLDERS AND CONTROL PERSONS

As of February 3, 2020, the following persons were record owners (or to the knowledge of the Trust, beneficial owners) of 5% or more of any class of the shares of the Fund. The Trust believes that most of the shares referred to below were held by the persons below in accounts for their fiduciary, agency or custodial customers. Persons beneficially owning more than 25% of the Fund's outstanding shares may be deemed to "control" the Fund within the meaning of the 1940 Act. Shareholders controlling the Fund may have a significant impact on any shareholder vote of the Fund.

APPENDIX A

DESCRIPTION OF RATINGS

Description of Ratings

The following descriptions of securities ratings have been published by Moody's Investors Services, Inc. ("Moody's"), Standard & Poor's ("S&P"), and Fitch Ratings ("Fitch"), respectively.

DESCRIPTION OF MOODY'S GLOBAL RATINGS

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment.

Description of Moody's Global Long-Term Ratings

Aaa Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.

Aa Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.

Baa Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Ba Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.

B Obligations rated B are considered speculative and are subject to high credit risk.

Caa Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.

Ca Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Hybrid Indicator (hyb)

The hybrid indicator (hyb) is appended to all ratings of hybrid securities issued by banks, insurers, finance companies, and securities firms. By their terms, hybrid securities allow for the omission of scheduled dividends, interest, or principal payments, which can potentially result in impairment if such an omission occurs. Hybrid securities may also be subject to contractually allowable write-downs of principal that could result in impairment. Together with the hybrid indicator, the long-term obligation rating assigned to a hybrid security is an expression of the relative credit risk associated with that security.

Description of Moody's Global Short-Term Ratings

P-1 Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2 Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3 Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Description of Moody's U.S. Municipal Short-Term Obligation Ratings

The Municipal Investment Grade ("MIG") scale is used to rate U.S. municipal bond anticipation notes of up to five years maturity. Municipal notes rated on the MIG scale may be secured by either pledged revenues or proceeds of a take-out financing received prior to note maturity. MIG ratings expire at the maturity of the obligation, and the issuer's long-term rating is only one consideration in assigning the MIG rating. MIG ratings are divided into three levels-MIG 1 through MIG 3-while speculative grade short-term obligations are designated SG.

Moody's U.S. municipal short-term obligation ratings are as follows:

MIG 1 This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

MIG 2 This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

MIG 3 This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

SG This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

Description of Moody's Demand Obligation Ratings

In the case of variable rate demand obligations ("VRDOs"), a two-component rating is assigned: a long or short-term debt rating and a demand obligation rating. The first element represents Moody's evaluation of risk associated with scheduled principal and interest payments. The second element represents Moody's evaluation of risk associated with the ability to receive purchase price upon demand ("demand feature"). The second element uses a rating from a variation of the MIG scale called the Variable Municipal Investment Grade ("VMIG") scale.

Moody's demand obligation ratings are as follows:

VMIG 1 This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 2 This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 3 This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

SG This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have an investment grade short-term rating or may lack the structural and/or legal protections necessary to ensure the timely payment of purchase price upon demand.

DESCRIPTION OF S&P'S CREDIT RATINGS

An S&P issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and this opinion may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. Medium-term notes are assigned long-term ratings.

Issue credit ratings are based, in varying degrees, on S&P's analysis of the following considerations:

- The likelihood of payment—the capacity and willingness of the obligor to meet its financial commitments on a financial obligation in accordance with the terms of the obligation;
- The nature of and provisions of the financial obligation; and the promise S&P imputes; and
- The protection afforded by, and relative position of, the financial obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

An issue rating is an assessment of default risk but may incorporate an assessment of relative seniority or ultimate recovery in the event of default. Junior obligations are typically rated lower than senior obligations, to reflect lower priority in bankruptcy, as noted above. (Such differentiation may apply when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.)

NR indicates that a rating has not been assigned or is no longer assigned.

Description of S&P's Long-Term Issue Credit Ratings*

AAA An obligation rated 'AAA' has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitments on the obligation is extremely strong.

AA An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitments on the obligation is very strong.

A An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still strong.

BBB An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation.

BB; B; CCC; CC; and C Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions.

BB An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor's inadequate capacity to meet its financial commitments on the obligation.

B An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitments on the obligation.

CCC An obligation rated 'CCC' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitments on the obligation.

CC An obligation rated 'CC' is currently highly vulnerable to nonpayment. The 'CC' rating is used when a default has not yet occurred but S&P expects default to be a virtual certainty, regardless of the anticipated time to default.

C An obligation rated 'C' is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared with obligations that are rated higher.

D An obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless S&P believes that such payments will be made within five business days in the absence of a stated grace period or within the earlier of the stated grace period or 30 calendar days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation's rating is lowered to 'D' if it is subject to a distressed exchange offer.

*Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.

Description of S&P's Short-Term Issue Credit Ratings

A-1 A short-term obligation rated 'A-1' is rated in the highest category by S&P. The obligor's capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitments on these obligations is extremely strong.

A-2 A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitments on the obligation is satisfactory.

A-3 A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken an obligor's capacity to meet its financial commitments on the obligation.

B A short-term obligation rated 'B' is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties that could lead to the obligor's inadequate capacity to meet its financial commitments.

C A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation.

D A short-term obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless S&P believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation's rating is lowered to 'D' if it is subject to a distressed exchange offer.

Description of S&P's Municipal Short-Term Note Ratings

An S&P U.S. municipal note rating reflects S&P's opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, S&P's analysis will review the following considerations:

- Amortization schedule-the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and
- Source of payment-the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note.

S&P's municipal short-term note ratings are as follows:

SP-1 Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

SP-2 Satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

SP-3 Speculative capacity to pay principal and interest.

D 'D' is assigned upon failure to pay the note when due, completion of a distressed exchange offer, or the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions.

DESCRIPTION OF FITCH'S CREDIT RATINGS

Fitch's credit ratings relating to issuers are an opinion on the relative ability of an entity to meet financial commitments, such as interest, preferred dividends, repayment of principal, insurance claims or counterparty obligations. Credit ratings relating to securities and obligations of an issuer can include a recovery expectation. Credit ratings are used by investors as indications of the likelihood of receiving the money owed to them in accordance with the terms on which they invested.

The terms "investment grade" and "speculative grade" have established themselves over time as shorthand to describe the categories 'AAA' to 'BBB' (investment grade) and 'BB' to 'D' (speculative grade). The terms investment grade and speculative grade are market conventions, and do not imply any recommendation or endorsement of a specific security for investment purposes. Investment grade categories indicate relatively low to moderate credit risk, while ratings in the speculative categories either signal a higher level of credit risk or that a default has already occurred.

For the convenience of investors, Fitch may also include issues relating to a rated issuer that are not and have not been rated on its webpage. Such issues are denoted 'NR.'

Fitch's credit ratings do not directly address any risk other than credit risk. In particular, ratings do not deal with the risk of a market value loss on a rated security due to changes in interest rates, liquidity and other market considerations. However, in terms of payment obligation on the rated liability, market risk may be considered to the extent that it influences the ability of an issuer to pay upon a commitment. Ratings nonetheless do not reflect market risk to the extent that they influence the size or other conditionality of the obligation to pay upon a commitment (for example, in the case of index-linked bonds).

In the default components of ratings assigned to individual obligations or instruments, the agency typically rates to the likelihood of non-payment or default in accordance with the terms of that instrument's documentation. In limited cases, Fitch may include additional considerations (i.e. rate to a higher or lower standard than that implied in the obligation's documentation).

Note: The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' ratings and ratings below the 'CCC' category. For the short-term rating category of 'F1', a '+' may be appended.

Description of Fitch's Long-Term Corporate Finance Obligations Ratings

AAA Highest credit quality. 'AAA' ratings denote the lowest expectation of credit risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA Very high credit quality. 'AA' ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A High credit quality. 'A' ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

BBB Good credit quality. 'BBB' ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

BB Speculative. 'BB' ratings indicate an elevated vulnerability to credit risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial alternatives may be available to allow financial commitments to be met.

B Highly speculative. 'B' ratings indicate that material credit risk is present.

CCC Substantial credit risk. 'CCC' ratings indicate that substantial credit risk is present.

CC Very high levels of credit risk. 'CC' ratings indicate very high levels of credit risk.

C Exceptionally high levels of credit risk. 'C' ratings indicate exceptionally high levels of credit risk.

Ratings in the categories of ‘CCC’, ‘CC’ and ‘C’ can also relate to obligations or issuers that are in default. In this case, the rating does not opine on default risk but reflects the recovery expectation only.

Defaulted obligations typically are not assigned ‘RD’ or ‘D’ ratings, but are instead rated in the ‘CCC’ to ‘C’ rating categories, depending on their recovery prospects and other relevant characteristics. This approach better aligns obligations that have comparable overall expected loss but varying vulnerability to default and loss.

Description of Fitch’s Short-Term Ratings

A short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-term deposit ratings may be adjusted for loss severity. Short-Term Ratings are assigned to obligations whose initial maturity is viewed as “short term” based on market convention. Typically, this means up to 13 months for corporate, sovereign, and structured obligations, and up to 36 months for obligations in U.S. public finance markets.

Fitch’s short-term ratings are as follows:

F1 Highest short-term credit quality. Indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added “+” to denote any exceptionally strong credit feature.

F2 Good short-term credit quality. Good intrinsic capacity for timely payment of financial commitments.

F3 Fair short-term credit quality. The intrinsic capacity for timely payment of financial commitments is adequate.

B Speculative short-term credit quality. Minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

C High short-term default risk. Default is a real possibility.

RD Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

D Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

APPENDIX B – PROXY VOTING POLICIES AND PROCEDURES

In accordance with Rule 206(4)-6 under the Advisers Act, as a registered investment adviser with voting authority over proxies for clients' securities, Edgewood must adopt policies and procedures reasonably designed to ensure that Edgewood votes proxies in the best interest of clients; discloses information to clients about those policies and procedures; and describe to clients how they may obtain information about how Edgewood has voted the clients' proxies.

As indicated below, Julianne Mulhall has been designated as the Proxy Officer and is primarily responsible for compliance with the Firm's proxy voting policies.

- A. When Edgewood has discretion to vote the proxies of its clients, it will vote those proxies in the best interest of its clients unless the client has specifically retained voting authority.
- B. Where Edgewood has an obligation to vote, (1) the Proxy Officer will vote all stock, by proxy or in person, pursuant to Edgewood's Voting Guidelines, (2) a written record of such voting will be kept by Edgewood, and (3) Edgewood's Investment Committee (the "Committee") will supervise the voting of stock (subject to the review of Edgewood's Chief Compliance Officer and senior management) and will establish and maintain Voting Guidelines to carry out this function consistent with the foregoing principles. Edgewood may retain a third party to assist it in coordinating and voting proxies with respect to client securities. If so, the Proxy Officer shall monitor the third party to assure that all proxies are being properly voted and appropriate records are being retained.
- C. Edgewood will vote proxies in accordance with client instructions. In the absence of specific voting guidelines from the client or material conflicts, Edgewood will vote proxies in what it judges are the best interests of its client.
- D. The Committee has adopted general positions regarding selected proxy proposals that periodically are considered at annual meetings. Edgewood will generally vote in favor of routine corporate housekeeping proposals, including election of directors (where no corporate governance issues are implicated), selection of auditors, and increases in or reclassification of common stock. Edgewood will generally vote against proposals that make it more difficult to replace members of the issuer's board of directors, including proposals to stagger the board, cause management to be overrepresented on the board, introduce cumulative voting, introduce unequal voting rights, and create supermajority voting.
- E. For other proposals not addressed in the following guidelines, the Committee shall determine whether a proposal is in the best interests of its clients. Decisions are made exclusively in accordance with the economic interests of the account. Except where required under the terms of the governing instrument, social interests are not among the criteria employed by the Committee. The Committee's opinion concerning the management and prospects of the issuer may be taken into account, where appropriate, with special consideration given to the Master List issuers held in Edgewood's model portfolios. The Committee may take into account, among other things, the effect of the proposal on the underlying value of the securities (including the effect on marketability of the securities, potential legal issues arising from the proposal, and the effect of the proposal on future prospects of the issuer), the makeup of the issuer's Board of Directors, including the number and quality of both management and non-management directors, the likelihood of a change in such makeup or quality of directors, the necessity of providing the directors with sufficient tools and flexibility to properly discharge their duties as directors, the desirability of providing directors with sufficient time to carefully consider any proposals made to the issuer that might significantly affect the result or nature of activities or ownership of the issuer, and the quality of communications from the corporation to its shareholders. In considering anti-takeover provisions, consideration may be given to whether or not the proposal is part of a package of anti-takeover proposals or whether other anti-takeover measures are already in place. Insufficient information or vague or ambiguous wording may indicate that a vote against a proposal is appropriate even though the Committee agrees with the principle of the proposal. Conversely, a vote in support of a well-principled proposal may be appropriate despite inferior format or ambiguity in language or provisions.
- F. The Chief Compliance Officer will identify any conflicts that exist between the interests of Edgewood and its clients. This examination will include a review of the relationship of the firm with the issuer of each security to determine if the issuer is a client of Edgewood or has some other relationship with Edgewood or one of its clients.
- G. If a material conflict exists, Edgewood will vote in accordance with the Voting Guidelines. In the absence of applicable guidelines, Edgewood will vote based on an independent third party recommendation. The firm will also determine whether it is appropriate to disclose the conflict to the affected Clients, give ERISA clients the opportunity to vote the proxies themselves, or Edgewood will engage a third party to vote the proxies involved.
- H. Edgewood will disclose in its Form ADV Part 2 that clients may contact the Proxy Officer, Julianne Mulhall, via e-mail at jmulhall@edgewood.com or telephone at 212-652-9100 in order to obtain information on how Edgewood voted such client's proxies, and to request a copy of these policies and procedures. If a client requests this information, the Proxy Officer will prepare a written response to the client that lists, with respect to each voted proxy that the client has inquired about, (1) the name of the issuer; (2) the proposal voted upon and (3) how Edgewood voted the client's proxy.

- I. A concise summary of these Proxy Voting Policies and Procedures will be included in Edgewood's Form ADV Part 2, and will be updated whenever these policies and procedures are changed.
- J. The Proxy Officer will maintain records relating to Edgewood's proxy voting procedures. These may include electronic records. Records will be maintained and preserved for five years from the end of the fiscal year during which the last entry was made on a record, with records for the first two years kept in the firm's offices. Edgewood will retain the following records:
1. Edgewood's proxy voting policies and procedures, and any amendments thereto;
 2. Proxy statements received by Edgewood concerning securities held in Edgewood accounts, provided however that Edgewood may rely on retention in the SEC EDGAR system, the CDS SEDAR system or other publicly available electronic repository for those proxy statements that are so available;
 3. A record of each vote that Edgewood casts;
 4. A copy of any document Edgewood created that was material to making a decision how to vote proxies, or that memorializes that decision; and
 5. A copy of each written client request for information on how Edgewood voted such client's proxies, and a copy of any written response to any (written or oral) client request for information on how the firm voted its proxies.

K. Proxy Voting Guidelines

1. Eliminate preemptive rights: *Generally in favor.* Preemptive rights may result in a loss of financing flexibility and could prevent management from raising capital advantageously. There is potential for abuse if new equity securities are issued at a discount to the market price of existing securities. This may result in a transfer of value from existing to new shareholders. However, instances of abuse are unusual and there are expenses involved in issuing securities on a preemptive basis.
2. Indemnification of directors, i.e., limiting or eliminating liability for monetary damages for violating the duty of care: *Generally in favor.* Indemnification is generally necessary to attract qualified Board nominees in a litigious corporate environment. Monetary liability generally is not eliminated or limited for any breach of duty of loyalty, acts or omissions not in good faith, and any transactions in which the director derived an improper personal benefit.
3. Cumulative voting: *Generally opposed.* Cumulative voting may prevent the majority of shareholders from electing a majority of the Board. Cumulative voting requires fewer votes to obtain a Board seat. Therefore it promotes single interest representation on the Board, which may not represent the interest or concerns of all shareholders.
4. Executive stock option plans: *Generally opposed if exercise price is below market price or if dilution under the plan would be greater than 10%, particularly if the company is mature or executive compensation is excessive.* For rapidly growing, cash-short issuers where executive salaries are reasonable may approve a plan where dilution exceeds 10%.
5. Shareholder action by written consent: *Generally opposed to proposals to restrict or prohibit shareholders' ability to take action by written consent.* Shareholders may lose the ability to remove directors or initiate a shareholder resolution if they have to wait for the next scheduled meeting.
6. Shareholder right to call a special meeting: *Generally opposed to proposals to eliminate the right of shareholders to call a special meeting or to require the petition of more than 25% of shareholders to call a special meeting.* Shareholders may lose the right to remove directors or initiate a shareholder resolution if they cannot take action until the next regularly scheduled meeting. This is especially troublesome if shareholders do not have the right to act by written consent.
7. Super-majority vote requirements: *Generally opposed to proposals requiring that a vote of more than two-thirds be required to amend any bylaw or charter provision, or approve a merger or other business combination.* Super-majority vote provisions may stifle bidder interest in the issuer and thereby devalue its stock.
8. Anti-greenmail provision: *Generally opposed.* Favor equal treatment for all shareholders, but anti-greenmail provisions may severely limit management's flexibility, for example, with respect to share repurchase programs or ability to issue shares with special features.
9. Approval of Poison Pills: *Generally in favor.* However, Edgewood would generally be opposed when poison pills are utilized to prevent takeover bids that would be in the best interest of shareholders or when accompanied by super-majority requirements or inequitable voting provisions. Certain shareholder rights plans, however, protect the interest of shareholders by enabling the Board to respond in a considered manner to unsolicited bids.

10. Blank-check preferred stock: *Generally opposed*. Does provide in financing but also can be used as an entrenchment device. Can be used as a poison pill when distributed to stockholders with rights attached or can be issued with superior voting rights to friendly parties.
11. Classified/Staggered Boards of Directors - Greater-Than-Annual Election of Directors: *Generally opposed*. Classified Boards do provide stability and continuity; but, if someone wins proxy fights and replaces a third of the directors, because of the difficulties involved in running the issuer with a Board of Directors that is a third hostile and because the vote would be seen as a loss of confidence in management, the remaining directors might put the issuer up for sale or accommodate the wishes of the dissident group. A staggered Board could mean that a director who failed to attend meetings or who voted in favor of actions that were harmful to shareholders could not be removed for up to three years.
12. Majority vote election of directors: *Generally in favor*. Permits removal of non-performing, unpopular or ineffective directors.
13. Recapitalization Plan - Eliminate inequitable voting rights: *Generally in favor*. Fair voting provisions are critical elements of shareholder ownership. One share = One vote structure promotes Management and Board accountability.
14. Establish term limits for directors: *Generally opposed*. Experience and continuity in Board representation fosters acute and prudent oversight of Management.
15. Increase required number/percentage of independent and/or industry-experienced Board members: *Generally in favor*. Edgewood favors independent Compensation Committees and industry-experienced Board members to promote prudent management and effective Board oversight. Edgewood generally opposes arbitrary restrictions, percentages or minimum independent representation that may be impractical or potentially remove effective Board members. Anti-Trust statutes may inhibit recruitment of qualified, industry-experienced Board members. Comprehensive Board orientations can provide the requisite exposure to the business model.
16. Separation of Board Chairman and CEO Roles: *Generally in favor*. Separation of the primary Management (CEO) and Oversight (Board Chairman) roles promotes accountability and objective evaluation of performance.
17. Increase Director / Senior Management Liability: *Generally opposed*. Management or Board liability in excess of legal or statutory requirements would disadvantage the company in attracting and retaining talented and qualified persons. Sarbanes-Oxley imposes mandatory penalties against the CEO and CFO pursuant to misstatements and omissions of material facts.
18. Confidential voting: *Generally in favor*. Confidential voting eliminates the opportunity for management to apply pressure to Institutional shareholders with which a business relationship exists. It should be noted that the Department of Labor's "Avon Letter" and the Department of Labor's investigation of proxy voting violations in 1988 might have lessened the need for confidential voting.
19. Fair price provisions: *No general policy*. Generally opposed when accompanied by super-majority provision, i.e., a clause requiring a super majority shareholder vote to alter or repeal the fair price provision, in excess of two-thirds. Also generally opposed if the pricing formula is such that the price required is unreasonably high. Generally in favor if provisions are designed to prevent two-tier, front-end-loaded hostile tender offer; where no shareholder wants to get caught in the second tier, so that effectively all shareholders are coerced into accepting the offer.
20. Management / Board Compensation: *Generally opposed to excessive, unearned or unwarranted leadership compensation*. Generally in favor of establishing reasonable or standardized compensation practices. Generally in favor of compensation reflecting or contingent on achievement of challenging performance objectives. Generally in favor of guidelines reflecting compensation in comparable leadership roles and/or compensation to internal non-managerial employees. Generally in favor of compensation in the form of restricted stock and above market options that vest with performance and/or tenure. It would be difficult for an issuer to attract, retain and motivate top managers without competitive compensation packages. Shareholder approval is appropriate to deviate from guidelines.
21. Golden parachutes: *Generally opposed to excessive, unearned or unwarranted leadership severance. Generally in favor of establishing reasonable or standardized severance practices*. Generally in favor of severance calculations reflecting past/present annual compensation and performance. It would be difficult for an issuer considered likely to be taken over to attract and retain top managers without severance packages for involuntary termination or significant reduction in compensation, duties or relocation after a change in control. Shareholder approval is appropriate to deviate from guidelines.
22. Reincorporation: *Generally in favor of reincorporation within the United States to potentially exploit favorable regulatory or tax treatment or environmental conditions*. Generally opposed to reincorporation outside of the United States. Should examine whether change of state of incorporation would increase the capacity of management to resist hostile takeovers.
23. "Say on Pay": *Generally in favor of Say on Pay, Say on Frequency and Say on Golden Parachute issues*. In support of annual advisory shareholder votes and in support of management compensation not deemed excessive.

The following proposals are *generally approved*:

1. Election of management's nominees for Directors;
2. Appointment of Auditors;
3. Change in the date or location of annual meetings;
4. For investment companies, continuation of company management, investment advisers or distribution contracts;
5. Transaction of such other business as may properly come before the meeting;
6. Receiving and/or approving financial reports;
7. Indemnification of Directors;
8. Change of control provisions;
9. Stock splits and stock dividends;
10. Equity & Incentive Plans (Including, but not limited to: Stock Incentive Plans, Restricted Stock Plans, Management Stock Ownership Plans, Senior Executive Incentive Plans, Employee Stock Purchase Plans, Long-Term Incentive Plans, Performance Incentive Plans, Non-Employee Directors Stock Compensation Plans, Share Purchase & Option Plans);
11. Authority to issue additional debt;
12. Change in the number of authorized common shares;
13. Corporate name change;
14. Change in investment company agreements with advisers;
15. Stock option plans, unless exercise price is less than the market price at the time of the grant or excessive dilution would occur under the plan;
16. Removal of a Director only for cause;
17. Recoup unearned management bonuses;
18. Waiver of preemptive rights;
19. Fair pricing amendments unless accompanied by a super-majority provision in excess of two-thirds;
20. Equal access proposals;
21. Technical amendments to by-laws or charters;
22. Share repurchases; and
23. Spin-offs.

The following proposals are *generally opposed*:

1. Creation of a second class of stock with unequal voting rights;
2. Fair pricing provisions when accompanied by a super-majority provision in excess of two-thirds;
3. Amendment to bylaws by Board of Directors without shareholder approval;
4. Elimination of shareholder right to call a special meeting or requiring more than 25% of shareholders to call a special meeting;
5. Elimination of shareholder action by written consent;
6. "Stakeholder" proposals;

7. Loans or guarantees of loans to Officers and Directors;
8. Super-majority provisions in excess of two-thirds;
9. A greater vote requirement to repeal a provision than to adopt it;
10. Permit cumulative voting; and
11. Preparation of reports concerning social issues (Including, but not limited to: Employment Diversity, Equitable Compensation, Employment Discrimination, Environmental Impact, Biodiversity Impact, Climate Change Science, Toxic Substances, Human Rights, Social Responsibility, Labor Ethics, Foreign Relationships/Arrangements, Animal Testing, Regulatory & Litigation Risk, Political Contributions/ Affiliations, Regional/Geographical Issues, or Diseases).

When the Committee decides to vote against a proposal that is generally approved or to vote in favor of a proposal that is generally opposed, the reason for the exception will be recorded.

There is *no general policy* with respect to mergers or other combinations, such proposals will be evaluated on a case-by-case basis.
