The Fund files its complete schedule of investments with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year as an exhibit to its report on Form N-PORT (Form N-Q for filings prior to March 31, 2020). The Fund's Form N-Q and N-PORT are available on the SEC's website at <http://www.sec.gov>, and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, as well as information relating to how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, is available (i) without charge, upon request, by calling 1-800-791-4226; and (ii) on the SEC's website at <http://www.sec.gov>.

Dear Shareholder,

Your fund appreciated by +35.83% (Institutional shares) and +35.28% (Retail shares) over the trailing twelve months ending September 30, 2021[†]. The S&P 500 Growth Index appreciated by +28.86% and the S&P 500 Total Return Index by +30.00% in the same period. For the six-month period ending September 30, 2021, the Fund performance was +19.09% (Institutional shares) and +18.85% (Retail shares). In the same six month period, the S&P 500 Growth Index appreciated by +14.02% and the S&P 500 Total Return Index by +9.18%.

Over the last twelve months, the top portfolio contributors were Snap Inc. (+7.21%), Align Technology Inc. (+3.73%), NVIDIA Corp. (+2.91%), Intuit Inc. (+2.88%), and PayPal Holdings Inc. (+2.10%). Snap continues to gain traction across several promising business initiatives, such as Augmented Reality (“AR”), Maps, Spotlight and Gaming. AR in particular is expected to have meaningful commercial impact in the near-term, as brands begin to aggressively invest in Sponsored AR Lens advertising and Virtual Try-On. Align’s forward embrace of technology in the last several years enabled it to widen the gap between it and competitors during COVID-19. Namely, investments in digital capture and digital back-end processing allowed Align to continue to service dentists and orthodontists in a time of physical restrictions whereas competing products were severely hamstrung. NVIDIA continues to benefit from offering the most compelling products to meet the insatiable demand for datacenter computing. Datacenters that offer artificial intelligence and machine learning solutions have seen demand increase by 10x over the past several years and that has driven 80% revenue growth for NVIDIA’s data center segments. Additionally, demand for video game graphics accelerators has been positively impacted by gamers spending more time at home and technology improvements like ray tracing. Intuit’s shift to cloud-based distribution has structurally enhanced its growth prospects, as evidenced by the acceleration in TurboTax Live and QuickBooks Online. Moreover, the company is amplifying this organic momentum with strategic acquisitions of Credit Karma and Mailchimp. PayPal is an example of a company in the portfolio that has been working the digitization of their marketplace (electronic payments) and has seen an acceleration of those trends during the pandemic. Edgewood strongly believes that the ease of use and simplicity of services such as PayPal, Venmo or Honey, will attract more users and increase per-member engagement. This is reflected in volumes and earnings estimates continuing to rise.

The bottom five contributors over the last twelve months were Ecolab Inc. (0.00%), Match Group Inc. (+0.16%), Amazon.com Inc. (+0.22%), Alphabet Inc. (+0.24%), and Equinix Inc. (+0.27%). As mentioned before in our quarterly presentations,

both Ecolab and Alphabet were sold to fund new purchases. Match Group Inc., the provider of multiple online dating services, has wrestled with COVID-19 as physical lockdowns have transiently tempered users' propensity to pay for these apps. That said, we are very optimistic for the companies medium and long-term prospects—continued secular growth of online dating, the addition of micro-transaction monetization, and the lowering of App Store “toll fees” all should collectively benefit earnings. Amazon just happens to be lapping an ahistorical year of growth due to COVID-19 (where total revenue increased 38% YoY as compared to the historical trendline of circa 20%). We remain confident in the longevity of the customer problems that Amazon is solving, namely facilitating e-commerce and the provision of distributed computing infrastructure. Finally, Equinix was affected by slowing growth in its core business of retail datacenters and the negative impact that a rising interest rate environment has on REIT stocks. On the former, this should be offset by Equinix shifting to hyperscale datacenters where they provide datacenter connectivity for the largest technology companies in the world (such as the cloud computing businesses). On the latter, we view this to be a market-based phenomenon and one which will be outweighed by the long-term operating fundamentals of the business.

As the world begins to very gradually (and only somewhat) emerge from the COVID-19 crisis, our companies continue to move forward with their plans to transform more and more towards digital commerce, media, advertising, payments and retailing. It will not be linear, and there will be hiccups along the way, such as supply chain issues, but the move seems inexorable. Generally speaking, our companies are the leaders in their fields. As a result, we believe they will continue leading their industries. In terms of the worldwide economy, it looks okay but not great to us. We are concerned about supply shortages, inflation and the US labor participation rate (just to name a few!). That said, we are quite impressed with the way Edgewood companies are evolving, which should bode well for long-term performance.

Sincerely,

Edgewood Management LLC

This material represents the manager's assessment of the portfolio and market environment at a specific point in time and should not be relied upon by the reader as research or investment advice. Holdings are subject to change. Current and future holdings are subject to risk.

Mutual fund investing involves risk, including loss of principal. The Edgewood Growth Fund is a non-diversified fund. There can be no assurance that the Fund will achieve its stated objectives.

Definition of Comparative Indices

The **S&P 500 Growth Index** is a market capitalization weighted index consisting of those stocks within the S&P 500 Index that exhibit strong growth characteristics.

The **S&P 500 Index** consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the Index proportionate to its market value. The "S&P 500" is one of the most widely used benchmarks of U.S. equity performance.

Performance Through September 30, 2021[†]

Fund	Ticker	Three Months	Eleven Months	One Year	Five Years*	Ten Years*	Since
Edgewood Growth Fund, Institutional Shares	EGFIX	0.87%	36.99%	35.83%	25.69%	22.09%	14.33%
Edgewood Growth Fund, Retail Shares	EGFFX	0.77%	36.48%	35.28%	25.20%	21.76%	13.97%

* Annualized

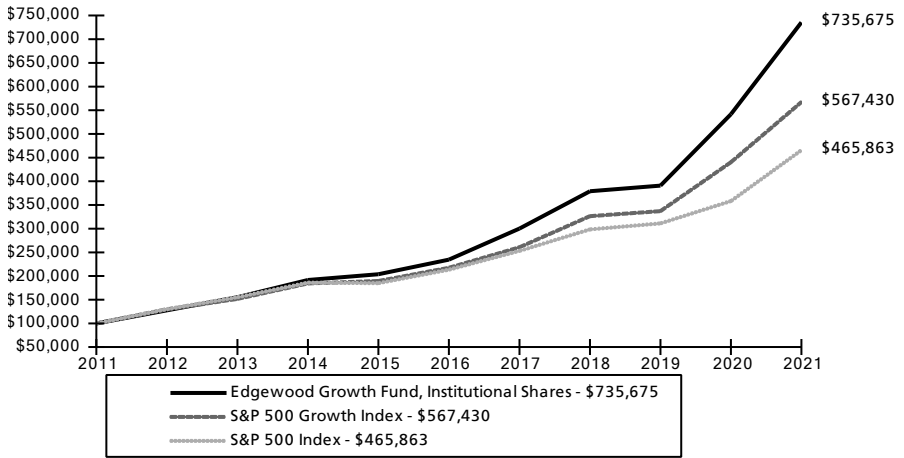

[†] Effective February 24, 2021, the Edgewood Growth Fund changed its fiscal year end to September 30 (See Note 1 in the Notes to Financial Statements).

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost and current performance may be higher or lower than the performance quoted. For performance current to the most recent month end, please call 800-791-4226. Expense ratios are: Institutional class 1.00% (net); 1.04% (gross); Retail class 1.40% (net); 1.44% (gross) as of the prospectus dated March 1, 2021. The Adviser has contractually agreed to reduce fees and reimburse expenses to the extent necessary to keep the Institutional Shares' total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding an amount equal to the management fees payable to the Adviser

through February 28, 2022. The Adviser has contractually agreed to reduce fees and reimburse expenses to the extent necessary to keep the Retail Shares' total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) to an amount equal to the sum of the management fees, and, to the extent incurred, distribution (12b-1) fees and shareholder servicing fees, until February 28, 2022. The Inception date of the Fund is February 28, 2006.

Comparison of Change in the Value of a \$100,000 Investment in the Edgewood Growth Fund, Institutional and Retail Shares, versus the S&P 500 Growth Index and the S&P 500 Index

AVERAGE ANNUAL TOTAL RETURN FOR THE PERIOD ENDED SEPTEMBER 30, 2021 ^{(1)(2)†}					
	Eleven Months	One Year Return	5 Year Return	10 Year Return	Inception to Date*
Institutional Shares	36.99%	35.83%	25.69%	22.09%	14.33%
Retail Shares	36.48%	35.28%	25.20%	21.76%	13.97%
S&P 500 Growth Index	32.96%	28.86%	21.15%	18.96%	12.51%
S&P 500 Index	33.56%	30.00%	16.90%	16.63%	10.33%

*Inception date of Fund is February 28, 2006.

(1) If the Adviser had not limited certain expenses, the Fund's total returns would have been lower.

(2) The graph is based on only the Institutional Shares; performance for Retail Shares would be different due to differences in fee structures.

† Effective February 24, 2021, the Edgewood Growth Fund changed its fiscal year end to September 30 (See Note 1 in the Notes to Financial Statements).

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, may be worth less than its original cost.

Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike a Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower.

Please note that one cannot invest directly in an unmanaged index.

There are no assurances that the Fund will meet its stated objectives. The Fund's holdings and allocations are subject to change because it is actively managed and should not be considered recommendations to buy individual securities.

NOTES TO THE FINANCIAL STATEMENTS

1. Organization:

The Advisors' Inner Circle Fund (the "Trust") is organized as a Massachusetts business trust under an Amended and Restated Agreement and Declaration of Trust dated February 18, 1997. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 39 funds. The financial statements herein are those of the Edgewood Growth Fund (the "Fund") which offers two classes of shares: Institutional Shares and Retail Shares. The Fund is non-diversified and its investment objective is to provide long-term growth of capital. The financial statements of the remaining funds of the Trust are presented separately. The assets of each fund of the Trust are segregated, and a shareholder's interest is limited to the fund of the Trust in which shares are held.

Effective February 24, 2021, the Fund changed its fiscal year end to September 30. The previous fiscal year end was October 31.

2. Significant Accounting Policies:

The following are significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund. The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB").

Use of Estimates — The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the fair value of assets, the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

Security Valuation — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If available, debt securities are priced based upon valuations provided by independent, third-

party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings and developments relating to specific securities in arriving at valuations. On the first day a new debt security purchase is recorded, if a price is not available on the automated pricing feeds from our primary and secondary pricing vendors nor is it available from an independent broker, the security may be valued at its purchase price. Each day thereafter, the debt security will be valued according to the Fund's Fair Value Procedures until an independent source can be secured.

All investment companies held in the Fund's portfolio are valued at the published net asset value.

Securities for which market prices are not "readily available" are valued in accordance with Fair Value Procedures established by the Fund's Board of Trustees (the "Board"). The Fund's Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") designated by the Board. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee. As of September 30, 2021, there were no securities valued in accordance with the Fair Value Procedures.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the

lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 — Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speed, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, etc.); and
- Level 3 — Prices, inputs or proprietary modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

For the period ended September 30, 2021, there have been no significant changes to the Fund's fair value methodologies.

Security Transactions and Investment Income — Security transactions are accounted for on trade date for financial reporting purposes. Costs used in determining realized gains and losses on the sale of investment securities are based on the specific identification method. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis.

Investments in REITs — With respect to the Fund, dividend income is recorded based on the income included in distributions received from the REIT investments using published REIT reclassifications including some management estimates when actual amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

Repurchase Agreements — The Fund may invest in tri-party repurchase agreements. Securities held as collateral for tri-party repurchase agreements are maintained in a segregated account by the broker's custodian bank. Provisions of the repurchase agreements require that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default of the

counterparty. Such collateral will be cash, debt securities issued or guaranteed by the U.S. Government, securities that at the time of the repurchase agreement is entered into are rated in the highest category by a nationally recognized statistical rating organization (“NRSRO”) or unrated securities that are of comparable quality to securities that at rated in the highest category by an NRSRO, as determined by the Adviser. If the counterparty defaults and the value of the collateral declines or if the counterparty enters into an insolvency proceeding, realization and/or retention of the collateral by the Fund may be delayed or limited. As of September 30, 2021, the Fund did not have any open repurchase agreements.

Federal Income Taxes — It is the Fund’s intention to continue to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, and to distribute substantially all of its income to its shareholders. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns to determine whether it is “more-likely-than-not” (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management’s conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (i.e., the last 3 open tax year ends, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the period ended September 30, 2021, the Fund did not have a liability for any interest or penalties related to unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the period ended September 30, 2021, the Fund did not incur any interest or penalties.

Expenses — Expenses that are directly related to the Fund are charged to the Fund. Other operating expenses of the Trust are prorated to the funds based on the number of funds and/or relative daily net assets.

Classes — Class specific expenses are borne by that class of shares. Income, realized and unrealized gains/losses, and non-class specific expenses are allocated to the respective class on the basis of relative daily net assets.

Dividends and Distributions to Shareholders — Dividends from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by the Fund.

3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services (the “Administrator”), a wholly owned subsidiary of SEI Investments Company, and/or SEI Investments Distribution Co. (the “Distributor”). Such officers are paid no fees by the Trust, other than the Chief Compliance Officer (“CCO”) as described below, for serving as officers of the Trust.

A portion of the services provided by the CCO and his staff, whom are employees of the Administrator, are paid for by the Trust as incurred. The services include regulatory oversight of the Trust’s Advisors and service providers as required by SEC regulations. The CCO’s services and fees have been approved by and are reviewed by the Board.

4. Administration, Distribution, Shareholder Servicing, Transfer Agent and Custodian Agreements:

The Fund and the Administrator are parties to an Administration Agreement under which the Administrator provides administrative services to the Fund. For these services, the Administrator is paid an asset-based fee, which will vary depending on the number of share classes and the average daily net assets of the Fund. For the period ended September 30, 2021, the Fund incurred \$6,066,813 for these services.

The Fund has adopted the Distribution Plan (the “Plan”) for the Retail Shares. Under the Plan, the Distributor, or third parties that enter into agreements with the Distributor, may receive up to 0.25% of the Fund’s average daily net assets attributable to Retail Shares as compensation for distribution services. The Distributor will not receive any compensation for the distribution of Institutional Shares of the Fund.

The Fund has entered into shareholder servicing agreements with third-party service providers pursuant to which the service providers provide certain shareholder services to Fund shareholders (the “Service Plan”) for the Retail Shares. Under the Service Plan, the Fund may pay service providers a fee at a rate of up to 0.25% annually of the average daily net assets attributable to Retail Shares, subject to the arrangement for provision of shareholder and administrative services. For the period ended September 30, 2021, the Fund’s Retail Shares incurred \$1,077,286 of shareholder servicing fees, an effective rate of 0.15%.

DST Systems, Inc. serves as the transfer agent and dividend disbursing agent for the Fund under a transfer agency agreement with the Trust. For the period ended

September 30, 2021, the Fund earned cash management credits of \$8,438 which were used to offset transfer agent expenses. This amount is listed as “Fees Paid Indirectly” on the Statement of Operations.

U.S. Bank, N.A. acts as custodian (the “Custodian”) for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

5. Investment Advisory Agreement:

Under the terms of an investment advisory agreement, Edgewood Management LLC (the “Adviser”) provides investment advisory services to the Fund at a fee, which is calculated daily and paid monthly at an annual rate of 1.00% of the Fund’s average daily net assets. The Adviser has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep the Institutional Shares’ total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding an amount equal to the management fees payable to the Adviser through February 28, 2022. The Adviser has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep the Retail Shares’ total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) to an amount equal to the sum of the management fees, and, to the extent incurred, distribution (12b-1) fees and shareholder servicing fees, until February 28, 2022. Refer to “Waiver of Investment Advisory Fees” on the Statement of Operations for fees waived for the period ended September 30, 2021. In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the three-year period preceding the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. At September 30, 2021, there were no previously waived and reimbursed fees subject to recoupment.

6. Share Transactions:

	Period Ended September 30, 2021 *	Year Ended October 31, 2020	Year Ended October 31, 2019
Share Transactions:			
Institutional Shares			
Issued	103,936,256	166,165,794	116,110,740

Reinvested	689,149	31,949	654,920
Redeemed	<u>(4,602,227)</u>	<u>(5,541,625)</u>	<u>(6,171,526)</u>
Net Retail Shares Transactions . .	<u>2,884,250</u>	<u>1,081,532</u>	<u>(1,821,739)</u>
Total Net Increase in Share Transactions	<u>20,180,106</u>	<u>60,962,251</u>	<u>31,945,440</u>

* For the period from November 1, 2020 to September 30, 2021.

7. Investment Transactions:

For the period ended September 30, 2021, the Fund made purchases of \$4,003,917,411 and sales of \$4,662,587,145 of investment securities other than long-term U.S. Government and short-term securities. The Fund had no purchases or sales of long-term U.S. Government securities.

8. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent. The permanent differences primarily consist reclassification of long term capital gain distribution on REITs and NOL offset against short term capital gains. The permanent difference that is credited or charged to Paid-in Capital and

THE ADVISORS' INNER CIRCLE FUND EDGEWOOD GROWTH FUND
SEPTEMBER 30, 2021

Distributable Earnings as of September 30, 2021 is primarily related to deemed distributions due to shareholder redemptions that have been reclassified to (from) the following accounts.:

<u>Paid-in Capital</u>	<u>Distributable Earnings (Loss)</u>
\$131,902,553	\$(131,902,553)

The tax character of dividends and distributions declared during the period/fiscal years ended September 30, 2021, October 31, 2020 and October 31, 2019 were as follows:

	<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>	<u>Total</u>
2021	\$232,876,098	\$1,272,977,454	\$ 1,505,853,552
2020	\$ —	\$ 48,275,169	\$ 48,275,169
2019	\$ 53,085,171	\$ 519,503,487	\$ 572,588,658

As of September 30, 2021, the components of Distributable Earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 79,454,385
Undistributed Long-Term Capital Gain	1,426,902,138
Other Temporary Differences	2
Unrealized Appreciation	18,399,510,088
Total Net Distributable Earnings	<u>\$ 19,905,866,613</u>

The Federal tax cost and aggregate gross unrealized appreciation and depreciation on investments held by the Fund at September 30, 2021 were as follows:

<u>Federal Tax Cost</u>	<u>Aggregate Gross Unrealized Appreciation</u>	<u>Aggregate Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation</u>
\$15,561,828,502	\$18,444,488,213	\$(44,978,125)	\$18,399,510,088

Tax cost on investment is different than book cost because of wash sale adjustments.

9. Concentration/Risks:

The Fund's investment strategy often results in a core group of stocks of companies that it believes hold the most growth potential. As a result, poor performance or adverse economic events affecting one or more of these companies could have a greater impact on the Fund than it would on another mutual fund with a broader range of investments.

Equity Risk – Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day-to-day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

Non-Diversification Risk – The Fund is non-diversified and its investment strategy often results in a core group of stocks of companies that it believes hold the most growth potential. As a result, poor performance or adverse economic events affecting one or more of these companies could have a greater impact on the Fund than it would on another mutual fund with a broader range of investments.

Small- and Medium-Capitalization Company Risk – To the extent that the Fund invests in small- and medium-capitalization companies, the Fund may be subject to additional risk. The small- and medium-capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small and mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small and mid-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Foreign Company Risk – When the Fund invests in foreign securities, it will be subject to risks not typically associated with domestic securities. Although American Depositary Receipts (“ADRs”) are an alternative to directly purchasing the underlying foreign securities in their national markets and currencies, they are also subject to many of the risks associated with investing directly in foreign securities. Foreign investments can be riskier and more volatile than investments in the United States. Adverse political and economic developments or changes in the value of foreign currency can make it difficult for the Fund to sell its securities and could reduce the value of your shares. Securities of foreign companies may not be registered with the SEC and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publically available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising the portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers.

Investment Style Risk – The Fund pursues a “growth style” of investing, meaning that the Fund invests in equity securities of companies that the Adviser believes will have above-average rates of earnings growth and which, therefore, may experience above-average increases in stock prices. Over time, a growth investing style may go in and out of favor, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

Market Risk – The risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. Markets for securities in which the Fund invests may decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments that may cause broad changes in market value, public perceptions concerning these developments, and adverse investor sentiment or publicity. Similarly, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund’s performance and cause losses on your investment in the Fund.

Cyber Security Risk – The Fund and its service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. Cyber-attacks may interfere with the processing of shareholder transactions, impact the Fund’s ability to calculate its net asset value, cause the release of private shareholder information or confidential company information, impede redemptions, subject the Fund to regulatory fines or financial losses, and cause reputational damage. Similar types of cyber security risks are also present for issuers of securities in which the Fund invests.

10. Loans of Portfolio Securities:

The Fund may lend portfolio securities having a market value up to one-third of the Fund’s total assets. Such loans are secured by collateral equal to no less than the market value of the loaned securities determined daily. Such collateral will be (i) cash collateral, which may be converted into collateral investments upon the direction of the Fund, and any proceeds derived therefrom, (ii) securities issued or guaranteed by the United States Government or its agencies, or (iii) irrevocable bank letters of credit issued by a person other than the borrower or an affiliate thereof, or equivalent obligation denominated in United States dollars. As of September 30, 2021, the cash collateral received is \$1,522,503,429 which was used to purchase short-term investments. It is the Fund’s policy to obtain additional collateral from or return

excess collateral to the borrower by the end of the next business day, following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than the value of the securities on loan. The securities lending agent (U.S. Bank National Association) and the Fund may pay a part of the interest earned from the investment of collateral in the form of a premium. The Fund records securities lending income net of such allocations. Lending securities entails a risk of loss to the Fund if and to the extent that the market value of the securities loans were to increase and the borrower did not increase the collateral accordingly, and the borrower fails to return the securities. The Fund could also experience delays and costs in gaining access to the collateral. The Fund bears the risk of any deficiency in the amount of the collateral available for return to the borrower due to any loss on the collateral invested. In the event of default, the Fund may use the collateral received to offset the position on the loan not returned by the borrower. As of September 30, 2021, the Fund had securities on loan with a market value of \$1,475,050,566.

11. Other:

At September 30, 2021, 30% of Institutional and 75% of Retail total shares outstanding were held by 2 and 4 record shareholders, respectively, each owning 10% or greater of the aggregate total shares outstanding. These shareholders were comprised of omnibus accounts that were held on behalf of various individual shareholders.

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be established; however, based on experience, the risk of loss from such claim is considered remote.

12. Subsequent Events:

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, as of September 30, 2021 no additional disclosures and/or adjustments were required to the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of The Advisors' Inner Circle Fund and the Shareholders of Edgewood Growth Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Edgewood Growth Fund (the "Fund") (one of the series constituting The Advisors' Inner Circle Fund (the "Trust")), including the schedule of investments, as of September 30, 2021, and the related statements of operations for the period from November 1, 2020 through September 30, 2021 and the year ended October 31, 2020, the statements of changes in net assets for the period from November 1, 2020 through September 30, 2021 and each of the two years in the period ended October 31, 2020, the financial highlights for the period from November 1, 2020 through September 30, 2021 and each of the five years in the period ended October 31, 2020 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the series constituting The Advisors' Inner Circle Fund) at September 30, 2021, the results of its operations for the period from November 1, 2020 through September 30, 2021 and the year ended October 31, 2020, the changes in its net assets for the period from November 1, 2020 through September 30, 2021 and each of the two years in the period ended October 31, 2020, and its financial highlights for the period from November 1, 2020 through September 30, 2021 and each of the five years in the period ended October 31, 2020, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting

but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2021, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

A handwritten signature in black ink that reads "Ernst + Young LLP". The signature is written in a cursive, flowing style.

We have served as the auditor of one or more Edgewood Management LLC investment companies since 2006.

Philadelphia, Pennsylvania

November 24, 2021

DISCLOSURE OF FUND EXPENSES *(Unaudited)*

We believe it is important for you to understand the impact of fees regarding your investment. All mutual funds have operating expenses. As a shareholder of a mutual fund, you incur ongoing costs, which include costs for fund management, administrative services, and shareholder reports (like this one), among others. Operating expenses, which are deducted from a mutual fund's gross income, directly reduce the investment return of a mutual fund. A mutual fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing fees (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (April 1, 2021 to September 30, 2021).

The table on the next page illustrates your Fund's costs in two ways.

- **Actual fund return.** This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the Fund's actual return, and the fourth column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for your Fund under the heading "Expenses Paid During Period."
- **Hypothetical 5% return.** This section is intended to help you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had a return of 5% before expenses during the period, but that the expense ratio is unchanged. In this case, because the return used is not the Fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% return. You can assess your Fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other mutual funds.

Please note that the expenses shown in the table are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs such as sales charges (loads), and redemption fees, which are described in the Prospectus. If this fee were applied to your account, your costs would be higher.

THE ADVISORS' INNER CIRCLE FUND EDGEWOOD GROWTH FUND
SEPTEMBER 30, 2021

DISCLOSURE OF FUND EXPENSES *(Unaudited)*

	Beginning Account Value 4/01/2021	Ending Account Value 9/30/2021	Annualized Expense Ratios	Expenses Paid During Period*
Actual Fund Return				
Institutional Shares	\$1,000	\$1,237.60	1.00%	\$5.49
Retail Shares	1,000	1,235.00	1.40	7.68
Hypothetical 5% Return				
Institutional Shares	\$1,000	\$1,020.05	1.00%	\$5.06
Retail Shares	1,000	1,018.05	1.40	7.08

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).

NOTICE TO SHAREHOLDERS *(Unaudited)*

For shareholders that do not have an September 30, 2021, tax year end, this notice is for informational purposes only. For shareholders with a September 30, 2021, tax year end, please consult your tax advisor as to the pertinence of this notice. For the fiscal year ended September 30 2021, the Fund is designating the following items with regard to distributions paid during the year.

<u>Long-Term Capital Gain Distributions</u>	<u>Ordinary Income Distributions</u>	<u>Total Distributions</u>	<u>Qualifying for Corporate Dividends Received Deduction (1)</u>	<u>Qualifying Dividend Income (2)</u>	<u>U.S. Government Interest (3)</u>	<u>Interest Related Dividends (4)</u>	<u>Short-Term Capital Gain Dividends (5)</u>	<u>Qualifying Business Income (6)</u>
85.36%	14.64%	100.00%	41.63%	41.46%	0.00%	0.00%	100.00%	0.00%

- (1) *Qualifying dividends represent dividends which qualify for the corporate dividends received deduction and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions).*
- (2) *The percentage in this column represents the amount of “Qualifying Dividend Income” as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of ordinary income distributions (the total of short-term capital gain and net investment income distributions). It is the intention of each of the aforementioned funds to designate the maximum amount permitted by law.*
- (3) *“U.S. Government Interest” represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of ordinary income. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders of the Advisors’ Inner Circle Fund — Edgewood Growth Fund who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.*
- (4) *The percentage in this column represents the amount of “Interest Related Dividends” as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of net investment income distributions that is exempt from U.S withholding tax when paid to foreign investors.*
- (5) *The percentage in this column represents the amount of “Short-Term Capital Gain Dividends” as created by the American Jobs Creation Act of 2004 and is reflected as a percentage of short-term capital gain distributions that is exempt from U.S withholding tax when paid to foreign investors.*
- (6) *The percentage of this column represents that amount of ordinary dividend income that qualified for 20% Business Income Deduction.*

The information reported herein may differ from the information and distributions taxable to the shareholder for the calendar year ending December 31, 2021. Complete information will be computed and reported with your 2021 Form 1099-DIV.
