

Net Performance Returns – As of December 31, 2024

	Net 4 th Quarter Performance Returns	Net 1-Year Performance Returns	Net 2-Year Performance Returns (Annualized)	Net 3-Year Performance Returns (Annualized)	Net 5-Year Performance Returns (Annualized)	Net 10-Year Performance Returns (Annualized)	Net 15-Year Performance Returns (Annualized)
Edgewood Large Cap Growth Composite	1.8%	19.0%	29.0%	-0.2%	11.9%	14.2%	15.0%
S&P 500 Index (TR)	2.4%	25.0%	25.7%	8.9%	14.5%	13.1%	13.9%

Past performance does not guarantee future results. Net performance returns are calculated after actual management expenses including performance-based fees. Net returns are calculated after the deduction of actual trading expenses. Trading expenses comprise trading commissions. Returns are rounded to nearest tenth and include reinvestment of dividends. This information is supplemental to Edgewood's GIPS Report located at the end of this presentation.

S&P 500 (Total Return) Index performance produced by Standard & Poor's. The S&P 500 is an unmanaged index with no expenses which covers 500 industrial, utility, transportation and financial companies of US markets. It is a capitalization-weighted index calculated on a total returns basis with dividends reinvested. Indices are unmanaged, cannot be purchased by an investor, and include the reinvestment of dividends.

Net Quarterly Performance – Large Cap Growth Composite as of December 31, 2024

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Annual	S&P 500
2015	1.93	3.55	-3.64	9.62	11.49	1.38
2016	-3.68	-0.94	9.90	-1.39	3.41	11.96
2017	13.46	8.58	5.56	3.91	35.13	21.83
2018	6.60	7.14	6.46	-15.58	2.64	-4.38
2019	16.25	5.43	0.03	9.50	34.25	31.49
2020	-11.55	30.00	10.21	12.51	42.58	18.40
2021	1.52	18.16	0.93	2.30	23.85	28.71
2022	-17.56	-26.76	-9.42	9.31	-40.22	-18.11
2023	15.11	11.24	-5.80	15.94	39.84	26.29
2024	13.16	2.87	0.40	1.81	19.00	25.02

Past performance does not guarantee future results. Refer to attached footnotes. Net performance results are calculated after actual management expenses including performance-based fees. Net and gross returns are calculated after the deductions of actual trading expenses. Trading expenses comprise of trading commissions. The Edgewood Large Cap Growth Composite has had a performance examination for the periods January 1, 1992, through December 31, 2023.

Gross Quarterly Performance – Large Cap Growth Composite as of December 31, 2024

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Annual	S&P 500
2015	2.16	3.78	-3.43	9.84	12.46	1.38

2024	20.04	18.99	25.02	680	0.29	8,528.4	23.7	35,937.4

Past performance does not guarantee future results. Refer to attached footnotes.

The Edgewood Large Cap Growth Composite has had a performance examination for the periods January 1, 1992, through December 31, 2023.

Performance results are expressed and calculated in U.S. dollars. Gross performance results are calculated before deduction of management fees. Net performance results are calculated after actual management expenses including performance-based fees. Net and gross returns are calculated after the deduction of actual trading expenses. Trading expenses comprise of trading commissions.

Annual composite dispersion presented is an asset-weighted standard deviation of gross returns for accounts in the composite the entire year.

Footnotes for Large Cap Growth Composite

Edgewood Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Edgewood Management LLC has been independently verified for the periods January 1, 1992, through December 31, 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Edgewood Large Cap Growth Composite has had a performance examination for the periods January 1, 1992, through December 31, 2023. The verification and performance examination reports are available upon request. Edgewood Management LLC is an SEC registered investment advisor. Past performance is no guarantee of future results. The performance data presented here should not be taken as any guarantee or other assurance as to future results. The value of any investment may increase or decrease over time. Performance results are expressed and calculated in U.S. dollars. Gross performance results are calculated before deduction of management fees. Net performance results are calculated after actual management expenses including performance-based fees. Net and gross returns are calculated after the deduction of actual trading expenses. Trading expenses comprise of trading commissions. The management fee as disclosed in Part 2A of Edgewood's Form ADV is 1%. Actual investment advisory fees incurred by clients may vary.

The Large Cap Growth Composite is comprised of individual and institutional accounts that invest in Edgewood's Large Cap Model of generally 22 large capitalization growth companies chosen by using fundamental analysis and an internal valuation discipline. Edgewood strives to beat the S&P 500 annually and over the long-term. The composite was created in January 2001 and the composite inception is January 1987. Composites are valued monthly, and portfolio returns have been weighted by using beginning of quarter market values plus weighted cash flows. Performance results reflect the reinvestment of dividends and other earnings. Trade date accounting has always been used. No alteration of composites as presented here has occurred because of changes in personnel. A complete list and description of the Firm's composites is available upon request. Depending on the custodian's treatment of foreign withholding taxes on dividends, interest, and capital gains, Edgewood's performance figures reflect the performance of accounts which may be gross or net of foreign withholding taxes on dividends, interest, and capital gains.

Only discretionary accounts are included in the Large Cap Growth Composite. Effective January 1, 2021, Edgewood changed the minimum portfolio size for inclusion in the composite from \$250,000 to \$1,000,000. Effective July 1, 2013, Edgewood changed the minimum portfolio size for inclusion in the composite from \$500,000 to \$250,000. Additional information regarding previous composite minimums is available upon request. From inception to December 31, 2000, the performance results shown represent the Institutional Large Cap Growth Composite, which has the same strategy as the Large Cap Growth Composite, but it only includes tax exempt accounts. This composite is presented because taxable portfolios prior to 2001 typically held restrictions and legacy holdings that were not representative of the strategy. As of January 1, 2001, the results shown include taxable and tax-exempt accounts that follow the composite strategy. The composite represents approximately 23.7% of the firm's assets under management as of December 31, 2024.

From January 1, 1992, to December 31, 1997, accounts were included in the composite the first full month after opening. From January 1, 1998, to December 31, 2004, accounts were included in the composite at the end of its second quarter after opening. As of January 1, 2005, accounts are included in the relevant composite the first full quarter after their opening. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The composite returns are benchmarked to Standard & Poor's 500 Index ("S&P 500"). The benchmark is used for comparative purposes only and generally reflects the risk or investment style of the investments reported on the schedules of investment performance. In January 2025, the benchmark for the Large Cap Growth Composite was changed from both the S&P 500 and Russell 1000 Growth indexes to only the S&P 500 index for all periods. This change was implemented to better align with Edgewood's strategy. Investments made for the portfolios Edgewood manages according to its Large Cap Growth strategy may differ significantly in terms of security holdings, industry weightings, and asset allocation from those of the aforementioned indices. Accordingly, investment results and volatility will differ from those of the benchmarks. The S&P 500 is an unmanaged index with no expenses, which covers 500 industrial, utility, transportation and financial companies of US markets. It is a capitalization-weighted index calculated on a total return basis with dividends reinvested. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Three Year Annualized Standard Deviation										
	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
Large Cap Growth Composite	11.94%	13.45%	12.68%	13.84%	12.96%	17.88%	16.66%	24.91%	24.62%	24.50%
S&P 500	10.48%	10.59%	9.92%	10.80%	11.93%	18.53%	17.17%	20.87%	17.29%	17.15%
The Three Year Annualized Standard Deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period.
